Franchising in European Contract Law Odavia Bueno
2006 are an academic proposal of the Study Group on a European Civil Code for the European wide regulation of the
contents of these three types of agreements The academic analysis Franchising in European Contract Law focuses on the
harmonised Principles on Franchising At present all member states of the EU have their own regulation on franchising This
situation might change in the light of the political process of Europeanization of contract law that was initiated by the
European Commission in 2001 As a result of that process the Principles on Franchising could be declared a set of rules which
might be opted for by the parties to franchising contracts Europe wide to govern their relationship In this analysis the main
obligations in franchising in PEL CAFDC are compared with those under French and Spanish law The main conclusion of this
thesis research has been that the main obligations of parties in franchising under the PEL CAFDC resemble those under
French and Spanish law Eventually differences will arise depending on how national courts weigh the interests of the parties
in each case A second conclusion has been that a choice for the PEL CAFDC instead of for French and Spanish law could be
considered a rational alternative concerning the applicable system of remedies and legal certainty **A Manual of**
