Cunningham,2022-09-08 Examines the role of the Virgin Mary in Byzantine society focusing on religious texts that promoted her cult **The Virgin Mary** Mary Joan Winn Leith,2021 This book describes the evolution of Marian thought from early Christianity to the present day Covering the various Christian denominations as well as the Islamic Mary it considers medieval and renaissance doctrine and representations of Mary as well as her involvement in debates over the Virginal body race anti Semitism and globalism **The Sacramentary** Ildefonso Schuster,1930 *Locating Renaissance Art* Carol M. Richardson,2007-01-01 Renaissance

art history is traditionally identified with Italian centers of production and Florence in particular. Instead, this book explores the dynamic interchange between European artistic centers and artists and the trade in works of art. It also considers the impact of differing locations on art and artists and some of the economic, political, and cultural factors crucial to the emergence of an artistic center. During c. 1420–1520, no city or court could succeed in isolation, and so artists operated within a network of interests and local and international identities. The case studies presented in this book portray the Renaissance as an exciting international phenomenon with cities and courts inextricably bound together in a web of economic and political interests.

**The Cult of the Mother of God in Byzantium** Leslie Brubaker, Mary B. Cunningham, 2016-12-05. This volume on the cult of the Theotokos (Virgin Mary) in Byzantium focuses on textual and historical aspects of the subject, thus complementing previous work which has centred more on the cult of images of the Mother of God. The papers presented here by an international team of scholars consider the development and transformation of the cult from approximately the fourth through the twelfth centuries. The volume opens with discussion of the origins of the cult and its Near Eastern manifestations, including the archaeological site of the Kathisma church in Palestine, which represents the earliest Marian shrine in the Holy Land, and Syriac poetic treatment of the Virgin. The principal focus, however, is on the 8th and 9th centuries in Byzantium as a critical period when Christian attitudes toward the Virgin and her veneration were transformed. The book re-examines the relationship between icons, relics, and the Virgin, asking whether increasing devotion to these holy objects or figures was related in any way. Some contributions consider the location of relics and later icons in Constantinople and other centres of Marian devotion; others explore gender issues, such as the significance of the Virgin's feminine qualities and whether women and men identified with her equally as a holy figure. The aim of this volume is to build on recent work on the cult of the Virgin Mary in Byzantium and to explore areas that have not yet been studied. The rationale is critical and historical, using literary, artistic, and archaeological sources to evaluate her role in the development of the Byzantine understanding of the ways in which God interacts with creation by means of icons, relics, and the Theotokos.
