The California Wine:

A Companion to California Wine Charles L. Sullivan, 1998-10-01 California is the nation's great vineyard supplying grapes for most of the wine produced in the United States. The state is home to more than 700 wineries and California's premier wines are recognized throughout the world. But until now there has been no comprehensive guide to California wine and winemaking. Charles L. Sullivan's *A Companion to California Wine* admirably fills that gap. Here is the reference work for consumers, wine writers, producers, and scholars. Sullivan's encyclopedic handbook traces the Golden State's wine industry from its mission period and Gold Rush origins down to last year's planting and vintage statistics. All aspects of wine are included and wine production from vine propagation to bottling is described in straightforward language. There are entries for some 750 wineries, both historical and contemporary, for more than 100 wine grape varieties from Aleatico to Zinfandel, and for wine types from claret to vermouth, all given in a historical context. In the book's foreword, the doyen of wine writers, Hugh Johnson, tells of his own forty-year appreciation of California wine and its history. Charles Sullivan's *Companion* he adds will provide the grist for debate, speculation, and reminiscence from now on. With admirable dispassion, he sets before us just what has happened in the plot so far.

The New California Wine Jon Bonné, 2013-11-05 A comprehensive guide to the must-know wines and producers of California's new generation and the story of the iconoclastic young winemakers who have changed the face of California viticulture in recent years. *The New California Wine* is the untold story of the California wine industry: the young, innovative producers who are rewriting the rules of contemporary winemaking; their quest to express the uniqueness of California terroir; and the continuing battle to move the state away from the overly technocratic, reactionary practices of its recent past. Jon Bonné writes from the front lines of the California wine revolution, where he has access to the fascinating stories, philosophies, and techniques of top producers. Part narrative, part authoritative purchasing reference, *The New California Wine* is a necessary addition to any wine lover's bookshelf.

The California Wine Industry 1830-1895 Vincent P. Carosso, 2023-04-28 *The California Wine Industry 1830-1895* offers a meticulously researched account of the formative years of California's viticulture, tracing its evolution from the mission period through to the late 19th century. The book captures the pivotal role of grape cultivation in shaping California's agricultural and economic identity. Through detailed analysis, Carosso examines the cultural, climatic, and economic conditions that made California a leading wine producer in the United States, as well as the challenges faced by early growers and winemakers in establishing the industry. The narrative highlights the profound contributions of Spanish missionaries, European immigrants, and American settlers who brought diverse techniques and traditions to the region. This volume provides valuable insights into the intersection of agriculture and society, delving into the adaptation of European viticultural practices to California's unique environment. It also explores the social, economic, and legislative shifts that influenced the industry's trajectory, including the decline of mission dominance and the rise of private enterprises. Enriched

with historical anecdotes production statistics and discussions on climate and geography The California Wine Industry 1830 1895 is an essential resource for historians wine enthusiasts and those interested in the broader history of California s development This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1951 **The Fresno Area and the California Wine Industry** Lucius Powers,1974

The 2014 Napa Valley Wine Harvest: Demystifying the California Wine Industry and Coming Economic Decline Marques Vickers, 2015-04-10 The 2014 Napa Valley Wine Harvest Demystifying the California Wine Industry and Coming Economic Decline is a photographic edition portraying the beauty and landscape of the northern California wine region during each stage of the annual wine harvest Photographer Marques Vickers 80 images captures the diversity of the vineyard terrain and majesty of the individual vines from his artist perspective The photography is supplemented by his observations and projections regarding the 2014 final grape crush report released on March 10 2015 by the United States Department of Agriculture Pacific Field Office Vickers addresses the three most strident issues water real

estate value leveraging and overproduction that peril the continued stability of the industry The 2014 Napa Valley harvest may ultimately prove a benchmark before the reality of the California drought radically affects the region's yields The harvest was the second largest and most lucrative in the history of the Napa Valley region bringing in a 9% value increase from 2013 By contrast the state of California's overall production shrunk 8.3% and valuation rose less than 1% The Northern San Joaquin Valley region had production decreases of 16% Vickers elaborates on what is going on within Napa that is eluding the majority of the State's wine regions Despite the continued effects of severe drought conditions the 2014 harvest may ultimately emerge as the finest year of the decade due to the smaller and more concentrated berry sizes creating greater flavor complexity What distinguished 2014 from the current year has been the timely rains and seasonal heat spikes As water sourcing becomes the new alchemy within the Napa Valley and throughout California aggressive deep well water drilling for underground sources is creating a potential for economic liability and ecological catastrophe The depletion of underground sources and storage reserves may prove necessary for short term coverage caused by the continuing drought and overproduction Longer term implications such as stricter water rationing and production moratoriums may inhibit continued growth and elevate pricing Will fine wine palettes and consumers foot the bill at the marketplace Vickers writings elaborate beyond the traditional marketing rhetoric and hype both Napa's production success and California's decline during 2014 More poignantly the results from the grape crush report identify significant production trends taking shape regarding emerging drought resilient grapes and increasingly out of favor Zinfandel and Merlot varieties Based on the immediate economic threats and absence of nimbostratus rain clouds a major financial correction appears eminent Vickers The 2014 Napa Valley Wine Harvest Demystifying the California Wine Industry and Coming Economic Decline edition is a straightforward guide for wine enthusiasts to understand the complexities of a wine harvest and outstanding visual overview of one of the most renowned wine regions internationally *The Los Angeles Times Book of California Wines* Darlene Geis, 1984 The Grapes of Conquest Julia Ornelas-Higdon, 2023-11 Honorable Mention for the 2024 OAH Frederick Jackson Turner Award California's wine country conjures images of pastoral vineyards and cellars lined with oak barrels As a mainstay of the state's economy California wines occupy the popular imagination like never before and drive tourism in famous viticultural regions across the state Scholars know remarkably little however about the history of the wine industry and the diverse groups who built it In fact contemporary stereotypes belie how the state's commercial wine industry was born amid social turmoil and racialized violence in eighteenth and nineteenth century California In *The Grapes of Conquest* Julia Ornelas Higdon addresses these gaps in the historical narrative and popular imagination Beginning with the industry's inception at the California missions Ornelas Higdon examines the evolution of wine growing across three distinct political regimes Spanish Mexican and American through the industry's demise after Prohibition This interethnic study of race and labor in California examines how California Natives Mexican Californios Chinese immigrants and Euro Americans came

together to build the industry Ornelas Higdon identifies the birth of the wine industry as a significant missing piece of California history one that reshapes scholars understandings of how conquest played out how race and citizenship were constructed and how agribusiness emerged across the region The Grapes of Conquest unearths the working class multiracial roots of the California wine industry challenging its contemporary identity as the purview of elite populations
