Proceedings of the 2025 4th International Conference on Social Sciences and Humanities and Arts (SSHA 2025) Sun Jing,Sun Hefei,Liu Shuli,Ren Xianpin,Cuneyt Birkok,2025-07-22 This is an open access book With the progress of social civilization social science and its research are becoming more and more important Theoretically and practically the study of social phenomena and social problems and the development of prosperous social sciences are the eternal themes of human beings At present social science research and its results can hardly meet the needs of social development especially the unscientific evaluation of social science results which has aroused great concern from all walks of life and has produced dirt and questions on social science thus affecting the proper development of social science Max Weber once said that the most important function of social science in modern times is to keep people clear headed and to resist the delusions of prophetic legislators Humanities and arts are the process of perceiving realizing thinking manipulating and expressing objective or subjective objects through capturing and excavating feeling and analyzing integrating and applying or displaying the stage results in the form obtained through feeling seeing hearing smelling touching The social sciences and humanities and arts contain content that will directly affect our lives and the way society functions And by reacting to today s increasingly intricate problems and situations through systematic and professional discussions they will further contribute to the improvement of institutions and the development

of society By thinking about issues and looking at problems and the world from different perspectives by putting the two together it may be possible to have more comprehensive appropriate and better responses for example the development of laws requires a deeper understanding of the environment in which they are implemented international trade requires a certain understanding of the customs of different countries and the development of tax and economic policies requires a certain understanding of the population consumer demand etc

Advanced Deep Learning Algorithms for Multi-Source Data and Imaging Jicheng Wang,Haoyu Chen,2025-11-24 Deep learning technology has been widely applied to multi source data and imaging in the past decade It aims to handle multi modality data from different sources including images text audio and sensor data thereby facilitating seamless integration and interpretation of heterogeneous data for downstream tasks such as image classification object detection medical imaging analysis etc Although the continuous development of deep learning algorithms for multi source data and imaging has brought significant progress to various fields there are still challenges in terms of learning efficiency generalization ability interpretability and transfer ability This Research Topic aims to bring together current research progress from both academia and industry on novel deep learning algorithms to address the challenges to multi source data and imaging Specifically three main objectives are as follows Pursue new discoveries and theoretical foundations in various areas such as computer vision data science biomedical engineering autonomous driving etc For example which deep learning frameworks can effectively process and fuse multi source data How to use deep learning algorithms to improve the accuracy and efficiency of imaging How to efficiently optimize multi modal imaging data Develop new deep learning algorithms and tools for multi source data and imaging For example how to design more efficient feature extraction and data fusion methods for multi source data with complex scenarios What innovative deep learning models are suitable for specific application scenarios such as environmental monitoring and disease diagnosis Explore the application and potential impact of these advanced deep learning algorithms in socioeconomic areas For example how can these technologies improve public health and personal health management How do they contribute to improving the quality and

efficiency of medical services How to overcome ethical challenges while ensuring data privacy and interpretability This Research Topic focuses on the theory and applications of deep learning for multi source data and imaging aiming to establish a forum for researchers to share their achievements and discoveries We sincerely invite researchers to submit their original research article to explore advanced deep learning algorithms for multi source data and imaging The following topics are the specific interests of this special issue including but not limited to Deep learning Multimodal analysis Zero shot learning Representation learning Data fusion Reinforcement learning Medical image processing Transfer Learning

Wind and Rain at the Brush Mike Mei,2023-02-12 Being in a foreign country immersed in the great atmosphere of western culture what is still in my heart is the quintessence of China and the DNA of Chinese culture still flows in my blood The United States is a multi ethnic country and the cultural essence of various ethnic groups blooms here like the flowers of spring Chinese calligraphy the gem of Chinese culture with a history of 3 000 years and the genius of the world that has shocked the history of art has been splendid in this melting pot The sages said There are at least two aspects in life one is life and the other is spirit Once one settles in a foreign place there will be spiritual pursuits cultural factors will become active childhood dreams will come into life and flowers will bloom in the cradle of multiculturalism In the educational world dominated by western culture eastern culture and Chinese culture are not featured prominently especially in art departments in universities I am honored to be a practitioner and inheritor of Chinese calligraphy and I am a frequent guest speaker in various schools and museums in New England such as Harvard and Wellesley universities giving lectures demonstrations and exhibitions etc These invitations compensate for the neglect of Chinese calligraphy in the main curriculum and allow students to witness the creative process of Chinese calligraphy as an art form In Asian art departments of western universities there are capable people who study Chinese calligraphy theories from the perspective of westerners but only a few who are capable of doing calligraphy To answer this need I felt compelled to take up a teaching role shuttling between colleges high schools and elementary schools

Traces of the Calligrapher Mary McWilliams,David J. Roxburgh,2007 Traces of the Calligrapher reconstructs the intimate world of the calligrapher during the early modern period of Islamic culture bringing together the tools of the trade works in their own right that are rarely exhibited or published and the exquisite art made with these functional objects in India Iran and Turkey Drawn primarily from a prestigious private collection in Houston the works in this fascinating book include pens pen boxes chests tables paper scissors knives burnishers and book bindings of superb manufacture and design These objects are presented with examples of calligraphy that were executed as practice exercises occasional works wall hangings and manuscripts Seen together these rare works reveal the traces of their makers Cover
