**The Despairing Developer** Timothy Morris,1991 This narrative relates the day to day experience of an aid worker in Yemen The author casts an anthropological eye on the people permanent aid officials temporary aid workers the bureaucrats of the host country and community leaders involved in the activities *The Despairing Developer* Tim Morris, Timothy Morris,1991 This narrative relates the day to day experience of an aid worker in Yemen The author casts an anthropological eye on the people permanent aid officials temporary aid workers the bureaucrats of the host country and community leaders involved in the activities The Despairing Developer Timothy Morris,1991-12-31 This narrative relates the day to day experience of an aid worker in Yemen The author casts an anthropological eye on the people permanent aid officials temporary aid workers the bureaucrats of the host country and community leaders involved in the activities The Capacity to be Displaced: Resilience, Mission, and Inner Strength Clemens Sedmak,2017-04-03 The experience of displacement is shared by people who work internationally The capacity to be displaced is a necessary strength and skill for people working across cultures particularly for missionaries In order to deal with the stressful nature of displacement people need to be resilient resilience makes people flourish in adverse circumstances This volume presents a specific type of resilience namely resilience nourished by inner sources Cultivating inner resilience draws on all the facets of a person s interior life thoughts and memories hopes and desires beliefs and convictions concerns and emotions The notion of inner strength and resilience from within is developed using many examples from missionaries and development workers as well as case studies from all over the world *The Personal and the Professional in Aid Work* Anne-Meike Fechter,2016-03-16 This book considers how the personal and the professional dimensions are related and how they matter for aid work The contributions to this edited volume are based on the assumption that all actors are relevant in development including national and international aid workers A key question which the book explores is why the personal so often remains unacknowledged in development studies even though its salience for aid workers is well documented One possible reason is an implicit narrative of aid work as altruistic and self sacrificing which renders it inappropriate to devote much attention to the experiences of development professionals themselves In order to redress this this book critically considers the kind of difference they make and aims to understand how they respond to the challenges of their work The book explores their efficacy as human beings and employees with individual subjectivities social and cultural beliefs and practices and documents how these shape their involvement in development processes This book was published as a special issue of Third World Quarterly *Qualitative Analysis in the Making* Daniella Kuzmanovic, Andreas Bandak,2014-10-10 How do scholars transform qualitative data into analysis What does making analysis imply What happens in the space in between data and finalized analysis is notoriously difficult to talk about In other parts of the research process scholars and students are aided by method books that describe the technicalities of generating processing and sorting through data handbooks that teach academic writing and scholarly

works that offer meta level theoretical perspectives Yet the path from qualitative data to analysis remains a black box Qualitative Analysis in the Making ventures into this black box The volume provides a means of speaking about how analyses emerge in the Humanities Contributors from disciplines such as anthropology history and sociology of religion all employ an analytical double take They revisit one of their analyses analyzing how this particular analysis came into being Such analyses of an analysis are neither confessions nor step by step recounts of what happened Rather the volume argues that speaking of the space in between requires analytical displacement and the employment of fresh analytical takes This approach contributes to demystifying the path from qualitative data to finalized analysis It invites novel epistemological reflections among scholars and assists students in improving their analytical skills

Political Ecology and the Role of Water Gerhard Lichtenthäler, 2017-03-02 How can we explain the over exploitation and degradation of natural resources in the countries of the South Population growth poverty and problems associated with common property resource management have been common themes in this debate yet insufficient attention has been paid to how traditional political relations and local perceptions affect natural resource capture and resource allocation This is especially evident with respect to groups and communities at the political and geographical peripheries of state influence and control for whom self identity is constructed around notions of autonomy and food self sufficiency This informative book addresses this omission by discussing water resource allocation and management It focuses in particular on the socio economic and political contexts which influence approaches to and determine practices of water management Taking the example of the tribal communities of the Sa dah basin in the northern Yemen it analyzes the politics of environmental change with particular reference to groundwater resource degradation within the conceptual framework of political ecology
