**Territory and Power in Constitutional Transitions** George Anderson,Sujit Choudhry,2019-03-07 This collection of essays surveys the full range of challenges that territorial conflicts pose for constitution making processes and constitutional design It provides seventeen in depth case studies of countries going through periods of intense constitutional engagement in a variety of contexts small distinct territories bi communal countries highly diverse countries with many politically salient regions and countries where territorial politics is important but secondary to other bases for political mobilization Specific examples are drawn from Iraq Kenya Cyprus Nigeria South Africa Sri Lanka the UK Scotland Ukraine Bolivia India Spain Yemen Nepal Ethiopia Indonesia Aceh the Philippines Mindanao and Bosnia Herzegovina While the volume draws significant normative conclusions it is based on a realist view of the complexity of territorial and other political cleavages the country s political geometry and the power configurations that lead into periods of constitutional engagement Thematic chapters on constitution making processes and constitutional design draw original conclusions from the comparative analysis of the case studies and relate these to the existing literature both in political science and comparative constitutional law This volume is essential reading for scholars of federalism consociational power sharing arrangements asymmetrical devolution and devolution more generally The combination of in depth case studies and broad thematic analysis allows for analytical and normative conclusions that will be of major relevance to practitioners and advisors engaged in constitutional design

**Independence Referendum** Aileen McHarg, Tom Mullen, Alan Page, Neil Walker,2016-06-30 The September 2014 Scottish independence referendum was an event of profound constitutional and political significance not only for Scotland but for the UK as a whole Although Scottish voters chose to remain in the UK the experience of the referendum and the subsequent

political reaction to the No vote that triggered significant reforms to the devolution settlement have fundamentally altered Scotland's position within the Union. The extraordinary success of the Scottish National Party at the 2015 General Election also indicates that the territorial dimension to UK constitutional politics is more prominent than ever, destabilising key assumptions about the location and exercise of constitutional authority within the UK. The political and constitutional implications of the referendum are still unfolding and it is by no means certain that the Union will survive. Providing a systematic and academic analysis of the referendum and its aftermath, this interdisciplinary edited collection brings together public lawyers, political scientists, economists, and historians in an effort to look both backwards to and forwards from the referendum. The chapters evaluate the historical events leading up to the referendum, the referendum process, and the key issues arising from the referendum debate. They also explore the implications of the referendum both for the future governance of Scotland and for the UK's territorial constitution, drawing on comparative experience in order to understand how the constitution may evolve and how the independence debate may play out in future.

**The Law of Limitation and Prescription in British India** Upendra Nath Mitra, 1909

**Brexit and Rights Protection in the United Kingdom** Russell Solomon, 2026-04-21

The book is about how Brexit has and is likely to impact the UK's protection of rights. In analysing the multi-layered framework of institutions that has provided this protection, Solomon contributes to our understanding of how this critical juncture has disrupted the human rights regime developed under the EU, its limits, and the kind of associative posture the UK will likely adopt towards the EU in the post-Brexit era. This study adopts a historical institutional approach that evaluates the extent of post-Brexit UK's divergence from the EU in the protection of rights against a history of EU legal embeddedness in both UK law and established institutional arrangements. With Brexit's removal of the EU's legal constraints, including the protection of certain substantive and procedural rights, came opportunities for a new legislative framework which has served to centralise the UK's government's power, minimise parliamentary and judicial scrutiny, and further dilute some rights protections. The book will assess the tension between these Brexit-induced developments and those remaining institutions and norms as derived from both the experience of the EU's legal entrenchment and the UK's own earlier reforms, including the Human Rights Act and the devolution settlements. This institutional contest will help address the question of whether post-Brexit UK, in seeking a rebalancing of its legal and political institutions, has successfully embarked on a new legal and policy pathway. The question of rights protection after treaty withdrawal is a significant issue both inside and outside academic study. It will particularly interest researchers in UK public law, UK EU human rights law, and comparative constitutional law.
