

Underworld Breach

1 

Enchantment

Each nonland card in your graveyard has escape. The escape cost is equal to the card's mana cost plus exile three other cards from your graveyard. *(You may cast cards from your graveyard for their escape cost.)*

At the beginning of the end step, sacrifice Underworld Breach.

The Diamond Underworld:

The Diamond Underworld Fred Kamil, 1979 *Flight of the Diamond Smugglers* Matthew Gavin Frank, 2021-02-23

Unforgettable An outstanding adventure in its lyrical utterly compelling and heartbreaking investigations of the world of diamond smuggling Aimee Nezhukumatathil For nearly eighty years a huge portion of coastal South Africa was closed off to the public With many of its pits now deemed overmined and abandoned American journalist Matthew Gavin Frank sets out across the infamous Diamond Coast to investigate an illicit trade that supplies a global market Immediately he became intrigued by the ingenious methods used in facilitating smuggling particularly the illegal act of sneaking carrier pigeons onto mine property affixing diamonds to their feet and sending them into the air Entering Die Sperrgebiet The Forbidden Zone is like entering an eerie ghost town but Frank is surprised by the number of people willing even eager to talk with him Soon he meets Msizi a young diamond digger and his pigeon Bartholomew who helps him steal diamonds It s a deadly game pigeons are shot on sight by mine security and Msizi knows of smugglers who have disappeared because of their crimes For this Msizi blames Mr Lester an evil tall tale figure of mythic proportions From the mining towns of Alexander Bay and Port Nolloth through the halfway desert to Kleinsee s shores littered with shipwrecks Frank investigates a long overlooked story Weaving interviews with local diamond miners who raise pigeons in secret with harrowing anecdotes from former heads of security environmental managers and vigilante pigeon hunters Frank reveals how these feathered bandits became outlaws in every mining town Interwoven throughout this obsessive quest are epic legends in which pigeons and diamonds intersect such as that of Krishna s famed diamond Koh i Noor the Mountain of Light and that of the Cherokee serpent Uktena In these strange connections where truth forever tangles with the lore of centuries past Frank is able to contextualize the personal grief that sent him with his wife Louisa in the passenger seat on this enlightening journey across parched lands Blending elements of reportage memoir and incantation *Flight of the Diamond Smugglers* is a rare and remarkable portrait of exploitation and greed in one of the most dangerous areas of coastal South Africa With his sovereign prose and insatiable curiosity Matthew Gavin Frank reminds us that the world is a place of wonder if only we look Toby Muse *Diamonds* Ian Smillie, 2014-04-10 Diamonds are a multi billion dollar business involving some of the world s largest mining companies a million and a half artisanal diggers more than a million cutters and polishers and a huge retail jewellery sector But behind the sparkle of the diamond lies a murkier story in which rebel armies in Angola Sierra Leone and the Congo turned to diamonds to finance their wars Completely unregulated so called blood diamonds became the perfect tool for money laundering tax evasion drug running and weapons trafficking *Diamonds* brings together for the first time all aspects of the diamond industry In it Ian Smillie former UN Security Council investigator and leading figure in the blood diamonds campaign offers a comprehensive analysis of the history and structure of today s diamond trade the struggle for effective regulation and the challenges ahead There is he argues greater diversification and competition than ever before but thanks

to the success of the Kimberley Process this coveted and prestigious gem now represents a fragile but renewed opportunity for development in some of the world's poorest nations. This part of the diamond story has rarely been told. **The Last Empire** Stefan Kanfer, 1995-04-30. Timely corporate history as exciting and poignant as any good tale of derring-do against great odds by all too flawed giants. Kirkus Reviews. With a scholar's precision and a novelist's eye Stefan Kanfer tells the inside story of De Beers Consolidated Mines from the nineteenth century diamond rush that transformed Johannes De Beer's humble South African farm into an exotic klondike to the Oppenheimers' shadow empire that has achieved unmatched global reach. *West African Diamonds, 1919-1983* P. A. L. Greenhalgh, 1985. Study of the history of the diamond mining industry and trade in West Africa. reviews the world diamond industry examines the role of European foreign enterprise incl Land concessions labour supply wages labour relations profitability and productivity comments on African indigenization of digging concessions and operations growth of the African diamond industry and the production factors discusses the impact of government policies taxation public ownership and diamond marketing in Western Europe and within the region. Bibliography graph maps statistical tables. *The Mafia Encyclopedia* Carl Sifakis, 2006. More than 500 alphabetical entries provide information on the people places and events associated with the Mafia. [The Diamond World](#) David E. Koskoff, 1981

The Diamond Invention Edward Jay Epstein, 1982. This is a popular and somewhat superficial account of the international diamond industry written by an American journalist. The book is based on extensive reading and investigations including visits to several mines in Southern Africa but contains a number of inaccuracies and is not as reliable and informative as the similar account by T Green *The world of diamonds* London 1981. The major part of the book deals with the role of De Beers and the Central Selling Organization and chapter 4 *Holding back the ocean* is devoted to the operations in Namibia. The author describes how the cartel organizes production and marketing on a global scale and how it has repeatedly interfered in the internal political affairs of African states. He predicts a collapse of the monopoly and the disintegration of the industry with profound effects on a country like Namibia which depends heavily on income from the export of diamonds. There is also a bibliographic guide to the vast literature on diamonds mining and marketing p 239-56. Eriksen Moorsom 1989

Blood and Diamonds Steven Press, 2021-04-06. Diamonds have long been bloody. A new history shows how Germany's ruthless African empire brought diamond rings to retail display cases in America at the cost of African lives. Since the late 1990s activists have campaigned to remove conflict diamonds from jewelry shops and department stores. But if the problem of conflict diamonds (gems extracted from war zones) has only recently generated attention it is not a new one. Nor are conflict diamonds an exception in an otherwise honest industry. The modern diamond business Steven Press shows owes its origins to imperial wars and has never escaped its legacy of exploitation. In *Blood and Diamonds* Press traces the interaction of the mass market diamond and German colonial domination in Africa. Starting in the 1880s Germans hunted for diamonds in Southwest Africa. In the decades that followed Germans waged brutal wars to control the territory culminating in the

genocide of the Herero and Nama peoples and the unearthing of vast mineral riches Press follows the trail of the diamonds from the sands of the Namib Desert to government ministries and corporate boardrooms in Berlin and London and on to the retail counters of New York and Chicago As Africans working in terrifying conditions extracted unprecedented supplies of diamonds European cartels maintained the illusion that the stones were scarce propelling the nascent US market for diamond engagement rings Convinced by advertisers that diamonds were both valuable and romantically significant American purchasers unwittingly funded German imperial ambitions into the era of the world wars Amid today s global frenzy of mass consumption Press s history offers an unsettling reminder that cheap luxury often depends on an alliance between corporate power and state violence

Hierophantic Landscapes Richard Leviton,2011-09-26 The Earth is poised to make a great disclosure Its a hierophant But whats a hierophant A person who reveals the holy light But it can also be a landscape or a planet And whats the holy light It is the structure of reality and consciousness a map of the heavenly realms the engineering blueprint of Creation Some people call this imminent disclosure the Apocalypse and run for cover But that is mistaken Apocalypse means the revelation of the divine revelation It means the end of our picture of the world as we know it The world itself will be fine even better than fine Splendid Illumined The Architect of reality lays down His cards face up and you see the whole deck Here is the truth of yourself and the Earth How will this disclosure work What we call sacred sites and holy landscapes will start revealing themselves in full to us in all their geomantic and visionary richness Thats the inner patterning of their design their arrays of Light temples and subtle palaces primed for our visionary adventures and edification The Earth needs us to have these adventures and visions because thats how we keep the planet healthy

Hierophantic Landscapes visits five landscapes from Norway and England to California and Mexico providing firsthand reports on the visions and adventures of a small band of geomancers as they seek to unravel the mysteries of the Earth Maybe not such a small band because along the way we encounter angels landscape devas Nature Spirits and otherworldly mentors and revel in vistas of the ancient past of the Earth when that revelation was as fresh as a sunrise as it will soon be again
