Seven Lucky Gods of Japan Reiko Chiba,2012-08-28 This Japanese Shinto book profiles each of the Seven Luck Gods important deities in Japanese culture The Seven Lucky Gods of Japan are a group of deities whose origins stem from Indian Chinese and indigenous Japanese gods of fortune Not all of the gods are mythical beings One of them is an actual historical person Each of the seven gods has been recognized as a deity for more than a thousand years and each has had its own large following of believers Gradually however these gods were transformed from remote and impersonal deities to warmer and more benevolent teleological patrons of those professions arts and skills practiced by the Japanese The Japan Magazine,1916

Belief and Unbelief in the Ancient World Taylor O. Gray,Ethan R. Johnson,Martina Vercesi,2025-07-31 Discover what belief and unbelief meant in the ancient world Popular portrayals of the ancient world often give the impression that the ancients held uniform views of the gods Recent scholarship however has started to challenge such a reductive characterization To that end this volume brings together top scholars from a variety of disciplines to create a more nuanced picture of the diverse spectrum of belief and unbelief in the ancient world The contributors to this volume examine belief as it existed throughout the Mediterranean over the span of approximately a thousand years a broader scope than most comparable studies which tend to focus on a single period The book s breadth is evident not only in its chronology but also in its subject matter The authors examine religious belief and unbelief in biblical and classical sources material culture and iconography all within the contexts of ancient Jewish Christian and Greco Roman religious culture Readers will come away with a better understanding of how diverse ancient belief was how ancient communities expressed their faith through texts and translation and how people in antiquity connected art and religion Expansive and interdisciplinary this book will be of interest to students and scholars working in classics biblical studies ancient Near Eastern studies and Greek and Roman iconography Contributors Edward Armstrong Erin Darby Stefano De Feo Michael Anthony Fowler Thomas Harrison David J Johnston Theodore J Lewis Teresa Morgan Camilla Recalcati Matthew T Sharp Brent A Strawn
