The Problem Of The Text Of Acts:

The Problem of the Text of Acts W. A. Strange, 1992-04-02 In the book of Acts the so called Western text departs from the alternative text in numerous points of detail These divergences in the textual tradition of Acts have been the subject of renewed interest in recent years with a notable concentration on Lucan traits in the Western text The author of this study takes into account recent theories which have been proposed on the textual tradition of Acts and puts forward an ingenious thesis not considered hitherto to explain the existence of two streams of textual tradition for the book Analysis of a number of Western textual variants in Acts suggests that they may have arisen from the incorporation of marginal annotations into the text of Acts but Lucan thought and language is indeed characteristic of these readings Investigation of the non Western textual tradition uncovers occasional signs of editing according to the interests of the second century church From this evidence Dr Strange proposes that Acts shared the fate of numerous other works of antiquity by being published

posthumously the work of two second century editors is responsible for the remarkable divergence in the textual tradition of Acts *The Problem of the Text of Acts* W. A. Strange, 1989 **Expectations of the End** Albert Hogeterp, 2010-01-01

Since a fuller range of Qumran sectarian and not clearly sectarian texts and recensions has recently become available to us its implications for the comparative study of eschatological apocalyptic and messianic ideas in the Dead Sea Scrolls and in the New Testament need to be explored anew This book situates eschatological ideas in Qumran literature between biblical tradition and developments in late Second Temple Judaism and examines how the Qumran evidence on eschatology resurrection apocalypticism and messianism illuminates Palestinian Jewish settings of emerging Christianity The present study challenges previous dichotomies between realized and futuristic eschatology wisdom and apocalypticism and provides many new insights into intra Jewish dimensions to eschatological ideas in Palestinian Judaism and in the early Jesus movement Congress of Arts and Science: History of politics and economics. The Encyclopædia Britannica Hugh Chisholm, 1910 **The Harvard Theological Review** , 1918 **Evaluation and Translation** Carol Maier, 2014-04-23 The definition of value or quality with respect to work in translation has historically been a particularly vexed issue Today however the growing demand for translations in such fields as technology and business and the increased scrutiny of translators work by scholars in many disciplines is giving rise to a need for more nuanced more specialized and more explicit methods of determining value Some refer to this determination as evaluation others use the term assessment Either way the question is one of measurement and judgement which are always unavoidably subjective and frequently rest on criteria that are not overtly expressed This means that devising more complex evaluative practices involves not only quantitative techniques but also an exploration of the attitudes preferences or individual values on which criteria are established Intended as an interrogation and a critique that can serve to prompt a more thorough and open consideration of

evaluative criteria this special issue of *The Translator* offers examinations of diverse evaluative practices and contains both empirical and hermeneutic work Topics addressed include the evaluation of student translations using more up to date and positive methods such as those employed in corpus studies the translation of non standard language translation into the second language terminology the application of theoretical criteria to practice a social textual perspective and the reviewing of literary translations in the press In addition reviews by a number of literary translators discuss specific translations both into and out of English

Scribes, Motives, and Manuscripts Alan Mugridge,2024-08-02 In this volume Alan Mugridge reviews claims that scribes of New Testament manuscripts altered the text of their copies to further their own beliefs to stop people using them to support opposing beliefs or for some other purpose He discusses the New Testament passages about which these claims are made in detail noting their context exegesis and supporting manuscripts He concludes that while a small number of such claims are valid most are doubtful because unless a scribe s habits are clear in one manuscript we cannot know how the changes came about why they were made who made them and when they were made He argues that the bulk of the erroneous readings in New Testament manuscripts reviewed were made by scribal slips during the copying process and not in order to further anyone s personal agenda adding strength to the reliability of the Greek New Testament text available today despite the need to refine current editions to be as close as possible to the original text

Contextualization or Syncretism? Derek Brotherson,2021-11-11 As Christians seek to follow Paul s example of becoming like all people in order to win them to Christ a key question arises How far is too far Is there a point where appropriate contextualization becomes gospel distorting syncretism With the growing prominence of Insider Movements in the Muslim majority world in recent decades these questions have become especially urgent and hotly debated Based on an in depth biblical theological study of key Bible texts used by Insider Movement proponents and critics this book provides a ground breaking new assessment tool for distinguishing contextualization from syncretism It provides an invaluable resource for those engaged in ministry amongst Muslims for those with questions about Insider Movement

practices and for all who seek to grow in their understanding and practice of biblically grounded and authentic contextualization of the gospel
