The Scandinavian Religions And Magic:

The Scandinavian Religions and Magic J. A. MacCulloch, 2005-12-01 *Witchcraft and Magic in the Nordic Middle Ages* Stephen A. Mitchell, 2011-06-06 Stephen A Mitchell here offers the fullest examination available of witchcraft in late medieval Scandinavia He focuses on those people believed to be able and who in some instances thought themselves able to manipulate the world around them through magical practices and on the responses to these beliefs in the legal literary and popular cultures of the Nordic Middle Ages His sources range from the Icelandic sagas to cultural monuments much less familiar to the nonspecialist including legal cases church art law codes ecclesiastical records and runic spells Mitchell s starting point is the year 1100 by which time Christianity was well established in elite circles throughout Scandinavia even as some pre Christian practices and beliefs persisted in various forms The book s endpoint coincides with the coming of the Reformation and the onset of the early modern Scandinavian witch hunts The terrain covered is complex home to the Germanic Scandinavians as well as their non Indo European neighbors the Sami and Finns and it encompasses such diverse areas as the important trade cities of Copenhagen Bergen and Stockholm with their large foreign populations the rural hinterlands and the insular outposts of Iceland and Greenland By examining witches wizards and seeresses in literature lore and law as well as surviving charm magic directed toward love prophecy health and weather Mitchell provides a portrait of both the practitioners of medieval Nordic magic and its performance With an understanding of mythology as a living system of cultural signs not just ancient sacred narratives this study also focuses on such powerful evolving myths as those of the milk stealing witch the diabolical pact and the witches journey to Blåkulla Court cases involving witchcraft charm magic and apostasy demonstrate that witchcraft ideologies played a key role in conceptualizing gender and were themselves an important means of exercising social control

The Celtic and Scandinavian Religions J. A. MacCulloch, 2005-11-01 There is some evidence that certain women had priestly functions perhaps a near relation of the *githi* and occasionally acting for him Such a woman was called *gydja* and might even own a temple The god Frey had a young priestess in his temple regarded as his consort from Scandinavia *Worship and Its Accessories* Highly readable and densely informative this general survey of Celtic and Scandinavian mythology and its beliefs and practices first published in 1948 remains an excellent resource The author a well regarded expert on the subject explores nature worship deities and lesser supernatural beings mythical heroes magic and divination creation stories magic and morality and more Readers in comparative mythology and fans of Arthurian Celtic and epic fantasy fiction will find this book a delight British scholar JOHN ARNOTT MACCULLOCH 1868 1950 wrote numerous books on ancient mythology including *Religion of the Ancient Celts* *The Childhood of Fiction* *A Study of Folk Tales and Primitive Thought* *Mythology of All Races* *Religion Its Origin Forms and Medieval Faith and Fable*

The Norse Sorceress Leszek Garde, Sophie Bønding, Peter Pentz, 2023-08-24 Old Norse literature abounds with descriptions of magic acts that allow ritual specialists of various kinds to manipulate the world around them see into the

future or the distant past change weather conditions influence the outcomes of battles and more While magic practitioners are known under myriad terms the most iconic of them is the v lva As the central figure of the famous mythological poem V lusp The Prophecy of the V lva the v lva commands both respect and fear In non mythological texts similar women are portrayed as crucial albeit somewhat peculiar members of society Always veiled in mystery the v lur and their kind have captured the academic and popular imagination for centuries Bringing together scholars from various disciplinary backgrounds this volume aims to provide new insights into the reality of magic and its agents in the Viking world beyond the pages of medieval texts It explores new trajectories for the study of past mentalities beliefs and rituals as well as the tools employed in these practices and the individuals who wielded them In doing so the volume engages with several topical issues of Viking Age research including the complex entanglements of mind and materiality the cultural attitudes to animals and the natural world and the cultural constructions of gender and sexuality By addressing these complex themes it offers a nuanced image of the v lva and related magic workers in their cultural context The volume is intended for a broad diverse and international audience including experts in the field of Viking and Old Norse studies but also various non professional history enthusiasts The Norse Sorceress Mind and Materiality in the Viking World is a key output of the project Tanken bag Tingene Thoughts behind Things conducted at the National Museum of Denmark from 2020 to 2023 and funded by the Krogager Foundation

Old Norse Folklore Stephen A. Mitchell, 2025-02-15 The second volume of *Old Norse Folklore* explores medieval and early modern Nordic magic and witchcraft covering syncretism continuity survival and the reconstruction of pagan beliefs and cultic practices in this last area of western Europe to be Christianized This volume not only considers these issues but also pulls back the curtain on more obscure yet important corners of Nordic magico religious tradition In these chapters Stephen A Mitchell draws on materials from many different periods of the vast Nordic world stretching from Greenland to the Baltic and examines such diverse witnesses as sagas judicial records ballads synodal statutes runes proverbs church murals leechbooks and the language used to discuss magic and its actors *Old Norse Folklore* addresses how theology helped to shape the Nordic magical world and how language can reveal this world how magic was used as a practical matter in and what it meant philosophically to the medieval Nordic world and how inherited traditions between and among the historically connected societies of northern Europe impacted cultural developments in late medieval Scandinavia

The Religion of Ancient Scandinavia Sir William Alexander Craigie, 1906 *The War of the Gods (RLE Myth)* Jarich Oosten, 2015-03-05 This structural analysis of myth first published in 1985 focuses on social and political problems of Indo European mythology Dr Jarich Oosten tells how the ancient Indo European gods competed for supreme power and the exclusive possession of the sacred potion of wisdom and immortality In examining the social code of the wars of the gods he reveals that there are remarkably consistent patterns in time and space paternal relatives equals at first prove unable to share power magic goods etc while some gods retain their divine status as an exclusive prerogative their brothers or paternal

cousins are transformed into demons relatives by marriage however who are unequal at first succeed in sharing power and magic goods and thus become equal partners in the pantheon Dr Oosten describes how the ancient mythological cycles were broken down and transformed into heroic sagas and epics and shows how many traditionally related themes the severed head the magic cauldron were preserved Gradually the political problems of kingship came to overshadow the social problems of kinship as in the development of the myths of King Arthur Dr Oosten argues that the social code remains basically the same and his analysis of this code gives a fascinating perspective on the development of Indo European mythology from the oldest written sources to the comparatively recent fairytales **Catalogue** Peabody Museum of Archaeology and Ethnology. Chantepie de la Saussaye,1902 *The Religion of the Teutons* Pierre Daniel Chantepie de la Saussaye,1902 **Making Magic** Randall Styers,2004-01-15 Since the emergence of religious studies and the social sciences as academic disciplines the concept of magic has played a major role in defining religion and in mediating the relation of religion to science Across these disciplines magic has regularly been configured as a definitively non modern phenomenon juxtaposed to distinctly modern models of religion and science Yet this notion of magic has remained stubbornly amorphous In Making Magic Randall Styers seeks to account for the extraordinary vitality of scholarly discourse purporting to define and explain magic despite its failure to do just that He argues that this persistence can best be explained in light of the Western drive to establish and secure distinctive norms for modern identity norms based on narrow forms of instrumental rationality industrious labor rigidly defined sexual roles and the containment of wayward forms of desire Magic has served to designate a form of alterity or deviance against which dominant Western notions of appropriate religious piety legitimate scientific rationality and orderly social relations are brought into relief Scholars have found magic an invaluable tool in their efforts to define the appropriate boundaries of religion and science On a broader level says Styers magical thinking has served as an important foil for modernity itself Debates over the nature of magic have offered a particularly rich site at which scholars have worked to define and to contest the nature of modernity and norms for life in the modern world [The Origins of Drama in Scandinavia](#) Terry Gunnell,1995 He then points to certain characteristics found only in the manuscripts of these dialogic poems and in contemporary manuscripts of dramatic works from England and northern France as further evidence that in the thirteenth century the dialogic poems must have been regarded as dramatic works **Social Scandinavia in the Viking Age** Mary Wilhelmine Williams,1920 **The Burlington Magazine for Connoisseurs** ,1916 **Pauline** William Edward Norris,1908 **Delicia** Marie Corelli,1907 *Burlington Magazine for Connoisseurs* Robert Edward Dell,Charles John Holmes,Harold Child,Lionel Cust,Roger Fry,1916 'The world's religions' series George Thomas Bettany,1891 [The Burlington Magazine](#) ,1916 **The Celtic Monthly** ,1901
