published textbooks and served as officers of national organizations They taught in settlement houses and teacher training institutions developed music appreciation programs and organized women s symphony orchestras After World War II women continued their involvement in public school choral and instrumental music developed new methodologies conducted research and published in academia Howe s study traces this evolution in the roles played by women educators in the American music education system illuminating an area of research that has been ignored far too long Women Music Educators in the United States A History complements current histories of music education and supports undergraduate and graduate courses in the history of music music education American education and women s studies It will interest not only musicologists educational historians and scholars of women s studies but music educators teaching in public and private schools and independent music teachers
