The Science Of War And Peace:

The Science of War and Peace Robin Clarke,1971 War and Peace graf Leo Tolstoy,1929 *War, Peace and the Military* Franz Kernic,2023-03-17 This book is a comprehensive analysis of the various social science approaches to explaining and interpreting war peace and the military Its central aim is to trace and reconstruct those basic assumptions constructed and thought processes undertaken by modern social sciences in their research and conceptualization of military violence and the use of force In addition to such reconstruction the aim is also to enquire into the preconditions of such thought This study therefore eschews the development of an explicit strategy in the sense of a research strategy but instead is much more concerned with thinking about its subject matter by means of re thinking and reflecting upon different theoretical approaches and problems The investigation includes a critical reexamination of the tradition of military sociological research from the beginning of modern sociology to late twentieth century theoretical approaches regarding the security focused and or war driven aspects of modern society *Subject Index of the Modern Works Added to the Library of the British Museum in the Years ...* British Museum,1922 *War peace* graf Leo Tolstoy,1904 **WAR, PEACE AND VICTORY: STRATEGY AND STATECRAFT FOR THE NEXT CENTURY** Colin S. Fry,2015-02 The chapters in this book posit that humans clearly have the capacity to make war but since war is absent in some cultures it cannot be viewed as a human universal And counter to frequent presumption the actual archaeological record reveals the recent emergence of war It does not typify the ancestral type of human society the nomadic forager band and contrary to widespread assumptions there is little support for the idea that war is ancient or an evolved adaptation Views of human nature as inherently warlike stem not from the facts but from cultural views embedded in Western thinking Amazon com **Messenger of Peace** ,1928 **War, Peace, and the Future** Ellen Key,1916
