

A photograph of a cobblestone street in a city, likely Dublin, Ireland. The street is paved with irregular, dark grey cobblestones. On the right side, there is a building with a light-colored facade and a dark window. In the distance, a person is walking away from the camera. The overall scene is captured in a slightly desaturated, vintage style.

The Scribner Of New Irish Writing:

New Irish Writing Raymond J. Porter, James D. Brophy, Eamon Grennan, 1989 *Beckett and Contemporary Irish Writing* Stephen Watt, 2009-06-18 This book searches for the Beckettian impulse in Irish literature by tracing Beckett's legacy through a selection of contemporary writers

Understanding Colum McCann John Cusatis, 2012-08-24 The first critical approach to the literary career of the 2009 National Book Award winner *Understanding Colum McCann* chronicles the Irish born writer's journey to literary celebrity from his days as a teenage sportswriter for the Irish Press in the 1970s through the publication of his award winning first story *Tresses* in 1990 to his winning the 2009 National Book Award in fiction for the international bestseller *Let the Great World Spin* In this first critical study of McCann's body of work John Cusatis provides an introduction to McCann's life and career an overview of his major themes style and influences and close readings of his two short story collections and five novels Cusatis traces McCann's redefinition of the Irish novel exploring the author's propensity for transcending aesthetic cultural ethnic geographical and social boundaries in his ascent from the status of Irish novelist to international novelist In the process this study illuminates the various incarnations of McCann's perennial subject exile both geographical and emotional Cusatis also delineates how the influences of McCann's Irish upbringing penchant for international travel and exhaustive and eclectic reading of literature manifest themselves in his fiction Close attention is given to McCann's stylistic trademarks such as his poetic voice use of Christian symbolism Irish and classical mythology intertextuality multiple viewpoints nonlinear plot structure and the merger of what McCann deems factual truth and textual truth *Understanding Colum McCann* makes use of the existing body of published interviews profiles and critical articles as well as a decade of correspondence between Cusatis and McCann With international interest in McCann on the rise this first full length study of his career to date serves as an ideal point of entrance for students scholars and serious readers and offers the biographical and critical foundation necessary for a deeper understanding of McCann's fiction

Rewriting/Reprising Georges Letissier, 2009-10-02 This volume comprises sixteen essays preceded by an introductory chapter focusing on the diverse modalities of textual and more widely artistic transfer Whereas the first *Rewriting Reprising* volume coord by C Maisonnat J Paccaud Huguet its subversive potential is perceptible notably through its many attempts at emancipating the genre from the ideological fetters of gender Over the past two decades Victorian literature and culture has become an inescapable field of investigations to any study on intertextuality in the English speaking world In a second part diversity has been preferred to any single specific angle to approach the Victorian neo Victorian tropism The purpose is to provide as complete a spectrum as is reasonably possible in such a volume The practice of rewriting in the Victorian age is thus studied alongside contemporary appropriations of the Victorian canon The question is raised of whether literary fetishism may not result in a form of counterfeit classicism while the more challenging neo Victorian rewritings would make a claim for the need to choose one's literary heritage and ancestors This is where the post colonial agenda comes in Precisely the third part

investigates the question of rewriting reprising as a way of writing back The myth of Frankenstein's creature bent on wreaking vengeance on his creator is of course seminal as it offers a myth of transgression which in its turn becomes a foundation myth Not only are post colonial responses to their disclaimed parent texts highly theory informed but they also evince an awareness of such contemporary issues which are direct consequences of the colonial past In the last section of this volume the scope of what comes within the range of intertextuality per se is widened to cover artistic dialogism In the exchanges between theatrical texts reprise may be construed as a metaphor standing for the pleasure inherent in the process of recreation The interaction between embedded paintings and the embedding canvas offers yet another variation on the reprise motif as does the meta aesthetic discourse of the critic on the work of art What begins as mere repetition is soon colored by the personal inflections of the interpreter In operatic performances updating a classical text to make it suitable to contemporary audiences and in close harmony with the role assigned to music is liable to spur on the creativity of recreation

Novel Approaches to Anthropology Marilyn Cohen, 2013-09-05 This volume of interdisciplinary essays reflect current contributions to literary anthropology Novel Approaches to Anthropology Contributions to Literary Anthropology showcases the myriad ways that anthropologists bring their disciplinary perspectives theories concepts and pedagogical strategies to interpreting fiction and travel writing written in the past and present The authors integrate insights from the reflexive deconstructive turn in anthropology and from critical Marxist and feminist approaches that ground interpretation in the political economic and social constraints and experiences of everyday life The contributors share the view that fiction like all artistic expression is rooted in specific historical and cultural contexts Literature like all artistic expression stimulates a critical imagination by allowing readers to take a fresh look at their own society and culture

Reading the Ground Brian John, 1996 In this comprehensive study of Thomas Kinsella's poetry Brian John explores the poet's development within both the Irish and the English contexts and defines the nature of his poetic achievement He also offers a new reading of Kinsella's evolving relationship to one of his major literary forebears W B Yeats What becomes clear is the formidable accomplishment of a poet now writing at the height of his powers whose substantial body of work warrants comparison with the grand masters of twentieth century literature in English with Yeats Joyce and Beckett
