## To Skin A Cat:

*The Little Book of Clichés* Alison Westwood, 2013 Many of the phrases we use everyday are so woven into our vocabulary that we never think to question their origin or meaning How often we comfort the broken hearted with the reassurance that there are plenty more fish in the sea or ruin a surprise by letting the cat out of the bag We don't really mean our friend should consider dating a fish nor do we keep cats in bags but we use these phrases regardless Did you know that telling someone to get off their high horse comes from the 13th century Or that hair of the dog wasn't originally a hangover cure but a belief that applying a dog hair to a dog bite would cure the wound In the times of Roman Baths getting the wrong end of the stick didn't translate as a simple misunderstanding it actually referred to a communal toilet where a stick was used to pass a cloth from person to person unfortunately some would often receive the wrong end

**Thinking the Unthinkable** Charles C. Lemert, 2015-12-03 In the eloquent style for which he has become famous Charles Lemert writes of social theory as no one else Thinking the Unthinkable is offered as text for instruction yet it defies the prevailing assumption that social theory is a method for clarifying the facts of social life Lemert shows how social theory began late in the 19th century as a struggle to come to terms with the failure of modern reason to solve the social problems created by the capitalist world system Since then social theory has developed through twists and turns to think and rethink this Unthinkable Hence the surprising innovations of recent years postmodern queer postcolonial third wave feminist risk theories among others arising in the wake of globalization Once again Lemert has made the difficult clear in a book that students and other readers will treasure and keep

Mitchell Symons,2021-01-07 For some time now I've wanted to write a book which would answer the sort of questions that you don't even find asked elsewhere let alone answered Obviously in the interests of eclecticism I've also included some of the more mundane workaday questions what you might call the curriculum for a book of this type but even here I have at least tried to bring a fresher less reverent approach to bear Still there's no disguising the fact that it's the more esoteric questions that really grabbed my interest and these are inevitably the ones to which I have devoted the most energy That's because I really do need to know why the word bastard is only ever used as a term of abuse to men whether it's dangerous to suppress a fart you can actually lose weight by eating celery whether it's possible to knock yourself out using just your own fist why men don't use electrolysis to remove their beards what would happen to aeroplane passengers if someone opened the emergency exit while it was in the air and why of course girls can't throw **Oxford Dictionary of Proverbs**
