**Why America's Top Pundits Are Wrong** Catherine Besteman, Hugh Gusterson, 2005-01-17 This absorbing collection of essays subjects such popular commentators as Thomas Friedman Samuel Huntington Robert Kaplan and Dinesh D Souza to cold hard scrutiny and finds that their writing is often misleadingly simplistic culturally ill informed and politically dangerous Mixing critical reflection with insights from their own fieldwork twelve distinguished anthropologists respond by offering fresh perspectives on globalization ethnic violence social justice and the biological roots of behavior They take on such topics as the collapse of Yugoslavia the consumer practices of the American poor American foreign policy in the Balkans and contemporary debates over race welfare and violence against women In the clear vigorous prose of the pundits themselves these contributors reveal the hollowness of what often passes as prevailing wisdom and passionately demonstrate the need for a humanistically complex and democratic understanding of the contemporary world

**The Evolution of Conceptual Art In America** Kempton Mooney, 2000 *Heads in the Sand* Matthew Yglesias, 2008-04-14 Reveals the wrong headed foreign policy stance of conservatives neocons and the Republican Party for what it is aggressive nationalism Yglesias reminds us of the rich tradition of liberal internationalism that developed by Democrats was used with great success by both Democratic and Republican administrations for more than fifty years from publisher description

**Conspiracy theory and American foreign policy** Tim Aistrope, 2016-05-01 Conspiracy theory and American foreign policy examines the relationship between secrecy power and interpretation around international controversy where foreign policy orthodoxy comes up hard against alternative interpretations It does so in the context of US foreign policy during the War on Terror a conflict that was covert and conspiratorial to its core Offering a new dimension to debates on post truth politics this book critically examines the Arab Muslim paranoia narrative the view that Arab Muslim resentment towards America is motivated to some degree by a paranoid perception of American power in the Middle East This narrative is traced from its roots in a post War liberal understanding of populism through to foreign policy debates about the origins of 9 11 to the strategic heart of the Bush Administration s War of Ideas Balancing conceptual innovation with detailed case analysis Aistrope provides a window into the ideological commitments of the US War on Terror Offering a fascinating insight into conspiracy and paranoia

this book is essential reading for those interested in the relationship between secrecy power and contemporary politics
