The Icarus Deception Seth Godin, 2012-12-31 In Seth Godin's most inspiring book he challenges readers to find the courage to treat their work as a form of art Everyone knows that Icarus's father made him wings and told him not to fly too close to the sun he ignored the warning and plunged to his doom The lesson Play it safe Listen to the experts It was the perfect propaganda for the industrial economy What boss wouldn't want employees to believe that obedience and conformity are the keys to success But we tend to forget that Icarus was also warned not to fly too low because seawater would ruin the lift in his wings Flying too low is even more dangerous than flying too high because it feels deceptively safe The safety zone has moved Conformity no longer leads to comfort But the good news is that creativity is scarce and more valuable than ever So is choosing to do something unpredictable and brave Make art Being an artist isn't a genetic disposition or a specific talent It's an attitude we can all adopt It's a hunger to seize new ground make connections and work without a map If you do those things you're an artist no matter what it says on your business card Godin shows us how it's possible and convinces us why it's essential

Pamela L. Eddy, Debbie L. Sydow, Richard L. Alfred, Regina L. Garza-Mitchell, 2015-07-22 The contributions of community colleges to society are well documented Yet today's community colleges are at a cross road Decreases in funding support a push for college completion attention on developmental course work and a host of other demands create a dynamic context for community college operations Who leads these colleges matters as they face these demands and how they lead influences outcomes Pending leadership retirements provide a prime opportunity for thinking about community college leadership in new ways Entering this environment are prospective and aspiring leaders who are often not adequately prepared for the complexities of managing in a paradoxical organization The era of accountability puts a fine point on the need for leaders to pay heed to the policy making process and to requirements dictated by state legislative bodies and accreditation bodies Foundations and grant funders serve as instigators for changes in community colleges as well and also support research into ways to link employer needs to college curricular changes This book argues that neo leaders are required to lead transformational change for today and tomorrow's community colleges No longer can we rely on single leaders atop a hierarchy Talent throughout the institution must be tapped The authors argue that networked leadership is needed For networked leadership we begin to advance thinking about the role of networks and connections among leaders throughout the college and beyond the college's walls This volume outlines underlying values critical for neo leaders and offers questions leaders at various levels can use to jumpstart the type of courageous conversations needed on campus The tools presented in this book provide current and aspiring leaders with resources to prepare for successfully leading the way and developing new leaders to shape the future Our community colleges and their students require nothing less

Another popular platform for Tomorrow Connection books and manuals is Open Library. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents.
