Trust Companies, 1928 **Building Trust** Robert C. Solomon, Fernando Flores, 2003-05-01 In *Building Trust*, Robert C. Solomon and Fernando Flores argue that trust is not something that simply exists from the beginning; something we can assume or take for granted. It is not a static quality or social glue. Instead, they assert that trust is an emotional skill, an active and dynamic part of our lives that we build and sustain with our promises and commitments, our emotions, and integrity.

Outlook and Independent, 1897 **Work in a Modern Society** Jürgen Kocka, 2010-02-01 Whereas the history of workers and labor movements has been widely researched, the history of work has been rather neglected by comparison. This volume offers original contributions that deal with cultural, social, and theoretical aspects of the history of work in modern Europe, including the relations between gender and work, working and soldiering, work and trust, constructions and practices. The volume focuses on Germany but also places the case studies in a broader European context. It thus offers an insight into social and cultural history as practiced by German speaking scholars today but also introduces the reader to ongoing research in this field.

Train's Trust George Owen Baxter, 1925 A no-good thief takes on a job with a huge payout that he can't possibly resist. Steven Train is a thief who knows a thing or two about how to handle a firearm. One day he is approached by another crook named John Rainier to go on a manhunt. Train is wary at first but when Rainier tells him there is a huge payout, he decides to take on the job. Rainier works for Patrick Comstock, a rich rancher looking for an honest man to go on a dangerous mission in hopes of finding his long lost friend. Comstock's friend disappeared after losing all his earnings in oil stock investments that went bad. However, as luck

would have it one of the oil stocks bounced back and is now worth 50 000 Comstock needs Train to find his long lost friend and give him his earnings Train takes on the job with the intent of stealing the cash and splitting it with the no good Rainier but a snooping detective investigating a number of older crimes Train committed could ruin their best laid plans And to top it off Train has an odd change of heart and decides that if Comstock enlists his help he will double cross Rainier and will instead faithfully carry out his mission to find the missing person and return to him his money Self-Trust and Reproductive Autonomy Carolyn McLeod,2002-03-29 A study of the importance of self trust for women s autonomy in reproductive health The power of new medical technologies the cultural authority of physicians and the gendered power dynamics of many patient physician relationships can all inhibit women s reproductive freedom Often these factors interfere with women s ability to trust themselves to choose and act in ways that are consistent with their own goals and values In this book Carolyn McLeod introduces to the reproductive ethics literature the idea that in reproductive health care women s self trust can be undermined in ways that threaten their autonomy Understanding the importance of self trust for autonomy McLeod argues is crucial to understanding the limits on women s reproductive freedom McLeod brings feminist insights in philosophical moral psychology to reproductive ethics and to health care ethics more broadly She identifies the social environments in which self trust is formed and encouraged She also shows how women s experiences of reproductive health care can enrich our understanding of self trust and autonomy as philosophical concepts The book s theoretical components are grounded in women s concrete experiences The cases discussed which involve miscarriage infertility treatment and prenatal diagnosis show that what many women feel toward themselves in reproductive contexts is analogous to what we feel toward others when we trust or distrust them McLeod also discusses what health care providers can do to minimize the barriers to women s self trust in reproductive health care and why they have a duty to do so as part of their larger duty to respect patient autonomy
