Trust The Process How To Enhance Recov:

Trust the Process Linda Free-Gardiner,2001-05-29 Trust the Process book and workbook is for people frustrated by lack of tools for Recovery Enhancement programs They report new feelings of hope and the loss of guilt after reading the book and completing the exercises The book is illustrated to help people understand the concepts easier Every person who has addiction issues and or unresolved life trauma can benefit from this revolutionary new approach to relapse prevention Until recently the treatment standard has been to wait for an actual wet relapse then put the person into primary treatment again and again Ask yourself if primary treatment has not prevented relapse one two three or more times why do it again Instead look at an approach proven to be effective People using the Recovery Enhancement Program show an 83% abstinence rate after two years The national average is 16% statistics taken from study Clearly explained concrete exercises keep it simple so you don't waste valuable time figuring out how to do the work The program complements your 12 Step work Think of the 12 Steps as the foundation of recovery and the Recovery Enhancement Program as the mansion built on that foundation

Trusting Recovery and Desistance Lauren Hall,2023-11-30 The social processes which underpin and shape our lives have the power to significantly transform the trajectories of people experiencing recovery from addiction and desistance from crime Recovery from addiction and desistance from crime are processes which are often experienced and supported in the same physical spaces and are also frequently experienced by the same people This book therefore synthesises and presents research on the social influences of recovery and desistance This book presents the social component model of recovery from addiction and desistance from crime a strength based approach presenting case studies to better understand the social factors of both recovery from addiction and desistance from crime and therefore a step towards enhancing evidence based policy and practice The social components that have emerged and will be discussed within this book include relationships and social bonds social identity group membership and social networks and social capital Compiled based on observations interviews and social identity mapping methods this work combines and presents theory and research to enhance and strengthen the evidence available for people who are already teaching about supporting and experiencing both desistance from crime and recovery from addiction in practice
