*Henry VII's New Men and the Making of Tudor England* Steven Gunn, 2016-08-18 The reign of Henry VII is important but mysterious He ended the Wars of the Roses and laid the foundations for the strong governments of Henry VIII and Elizabeth I Yet his style of rule was unconventional and at times oppressive At the heart of his regime stood his new men low born ministers with legal financial political and military skills who enforced the king s will and in the process built their own careers and their families fortunes Some are well known like Sir Edward Poynings governor of Ireland or Empson and Dudley executed to buy popularity for the young Henry VIII Others are less famous Sir Robert Southwell was the king s chief auditor Sir Andrew Windsor the keeper of the king s wardrobe Sir Thomas Lovell the Chancellor of the Exchequer so trusted by Henry that he was allowed to employ the former Yorkist pretender Lambert Simnel as his household falconer Some paved the way to glory for their relatives Sir Thomas Brandon master of the horse was the uncle of Henry VIII s favourite Charles Brandon duke of Suffolk Sir Henry Wyatt keeper of the jewel house was father to the poet Sir Thomas Wyatt This volume based on extensive archival research presents a kaleidoscopic portrait of the new men It analyses the offices and relationships through which they exercised power and the ways they gained their wealth and spent it to sustain their new found status It establishes their importance in the operation of Henry s government and as their careers continued under his son in the making of Tudor England

*The Tudor Sheriff* Jonathan McGovern, 2021-12-20 Sheriffs were among the most important local office holders in early modern England They were generalist officers of the king responsible for executing legal process holding local courts empanelling juries making arrests executing criminals collecting royal revenue holding parliamentary elections and many other vital duties Although sheriffs have a cameo role in virtually every book about early modern England the precise nature of their work has remained something of a mystery The Tudor Sheriff offers the first comprehensive analysis of the shrieval system between 1485 and 1603 It demonstrates that this system was not abandoned to decay in the Tudor period but was effectively reformed to ensure its continued relevance Jonathan McGovern shows that sheriffs were not in competition with other branches of local government such as the Lords Lieutenant and justices of the peace but rather cooperated effectively with them Since the office of sheriff was closely related to every other branch of government a study of the sheriff is also a study of English government at work
