Vacant Possession:

Vacant Possession, 2010 Vacant possession is an element of property law that ensures a property is left in good condition when it changes hands Every time a property is sold or if tenants move out of rented property vacant possession is unavoidable a vital part of the job of any property lawyer or surveyor Yet this is the first book to look at this area in depth If a property professional understands vacant possession they can make sure their cases move quickly and complete at a time that suits them If they don't they're vulnerable to others who know it better and can use the law to frustrate proceedings for months or even years while their clients continue to pay money on rent or mortgage payments for properties they're not using This book is essential reading for all property lawyers and surveyors It's destined to be the definitive guide to vacant possession The FIRST book to be published on this misunderstood and vital part of property law All the information you need to navigate the area clear explanations of the law potential pitfalls AND practical strategies to help property professionals avoid those pitfalls Case studies to illustrate and explain complex legal issues *Precedents of Conditions of Sale of Real Estate, Reversions, Policies, &c* Frederick Edward Farrer, 1902

Comparative Housing Sales and Purchase Agreements Under the Malaysia, Singapore and New South Wales Housing Laws (UUM Press) Nuarrual Hilal Md. Dahlan, 2011-01-01 Abandoned housing projects is one of the major problems in housing industry in Peninsular Malaysia The reasons leading to this problem are many This catastrophe has caused multifarious problems to the stakeholders particularly the purchasers who become the aggrieved parties To date there is no effective and once and for all means to face the problems of abandoned housing projects One of the factors which causes abandonment of housing projects in Peninsular Malaysia is the lack of political will on part of the government to adopt an affirmative better housing delivery system such as the full build then sell system and the introduction of a housing development insurance to face the problems of housing abandonment This book provides in depth analyses of the terms and conditions of the statutory standard sale and purchase agreements as enshrined in Schedules G H I and J of the Housing Development Control and Licensing Regulations 1989 The objective of this book among others is to identify the weaknesses of the terms of the agreements if any which may have contributed to the problem of abandoned housing projects and their consequential troubles As comparative analyses the terms and conditions of the sale and purchase agreements as applicable and enforced in the Republic of Singapore and New South Wales Australia are chosen The purpose of these comparative analyses is to find the terms and conditions in these foreign jurisdictions agreements which can be learned and adopted in the statutory standard sale and purchase agreements Schedules G H I and J It is also for the betterment of the Malaysian housing industry as a whole and to protect the interests of the stakeholders in particular the purchasers as against the problems of housing abandonment and its consequences

Legal Issues in the Rehabilitation of Abandoned Housing Projects (UUM Press) Nuarrual Hilal Md. Dahlan, 2011-01-01 Abandoned housing project is one of the housing problems in Peninsular Malaysia Even though there are

laws and policies provided by the Malaysian Government to control the housing industry the abandoned housing project is still an unsettled issue for the Malaysian Government to tackle The real victims are the purchasers themselves There is virtually no standard common way to face the problems of abandoned housing projects Likewise there is no similar specific method to deal with the rehabilitation of abandoned housing projects This is due to the fact that in every abandoned housing project and its rehabilitation the problem and issues faced by the stakeholders vary Thus different methods are used to deal with the problems especially to rehabilitate the projects If the project is not variable for rehabilitation the project will be stalled forever without any prospects for rehabilitation to the detriment of the purchasers This book discusses the law and practice in rehabilitating abandoned housing project in Peninsular Malaysia Certain suggestions are also provided in this modest book for facing the problems of abandoned housing projects and their rehabilitation in Peninsular Malaysia and for the betterment of the housing industry in Peninsular Malaysia
