diagrams plans and sketches Denis Valode and Jean Pistre seem atypical in the world of contemporary architecture Neither flamboyant nor given to controversy they are on the contrary soft spoken and kind Their bright cheerful offices in the heart of Paris reflect this nature It seems quite natural that artists who work with light such as Yann Kersal and the late François Morellet have been pleased to create installations specifically for these offices because from their first completed work the renovation of the Musée d'Art Contemporain de Bordeaux in 1990 the pair have been actively interested in the connections between art and architecture The architects senses of modesty and efficiency have proven to be far more durable and better adapted to the demands of contemporary architecture than the many flamboyant styles that have come and gone since they started working together Rather than an isolated object a building by Valode Pistre is conceived as being part of a tissue of relationships and situations Valode Pistre have actively sought out links between their projects and science ethnology art sociology or history They do not seek to proclaim a brave new world for architecture as much as they work patiently in a way that seems natural to them In their modesty efficiency and affirmed modernity in the best sense of the word Denis Valode and Jean Pistre together with their team have staked out a considerable place in contemporary architecture not only in France but on the international scene as well This lavishly photographed and beautifully presented monograph celebrates the practice s 40th anniversary It highlights how the architects words are in perfect harmony with their ideas they avoid excessive rhetoric but when they talk about buildings they do so with passion and with clear ideas and methods often involving their esthetic sense developed through the world of art Adapted from the Introduction *Research and Technology Buildings* Hardo Braun,Dieter Grömling,2005-04-08 A handbook on planning and designing architecture for research and technology with 70 up to date international case studies of built works by architects such as Foster and Partners Nicholas Grimshaw Herzog de Meuron Sauerbruch Hutton and Nicholas Grimshaw **Contemporary architecture, 1900-2014, anglais** Conseil d'architecture, d'urbanisme et de l'environnement (Gironde),2014 Grand Bordeaux et Gironde architectures contemporaines permet de lire dans l'agglomération bordelaise l'évolution architecturale contemporaine sur plus d'un siècle de 1900 2014 Son objet est de souligner la puissance créatrice du XXe siècle C'est un guide pour l'amateur un outil pour le chercheur Chacun peut composer son propre parcours en fonction de la chronologie du programme du concepteur du quartier etc Il rassemble 235 références réparties en 216 fiches illustrées et commentées 62 d'entre elles sont traduites en anglais afin d'offrir un parcours pressé l'étranger venu quelques jours dans le Grand Bordeaux et en Gironde 0 **Exo-architectures** Florence Accorsi,François Lamarre,Pavillon de l'Arsenal (Paris, France),2007 Presents 80 projects designed or imagined by 40 Parisian architectural firms **Architecture**,1994 *An Engineer Imagines* Peter Rice,1996 Peter Rice 1935 1992 was perhaps the most influential structural engineer of this century The hundreds of buildings he worked on include such masterpieces as the Sydney Opera House the Pompidou Centre and Menil Collection and Lloyd's of London This is Peter Rice's autobiography He tells the stories behind his best known works and describes his
