Twenty-First Century Latin American Narrative and Postmodern Feminism Gina Ponce de Leon, 2014-06-26 The authors of *Twenty-First Century Latin American Narrative and Postmodern Feminism* argue that while the more traditional feminists of the 20th century did not recognize in their theoretical and literary work the diversity of women's experiences current Latin American post feminist and post modern writers are proposing a transgressive new social order resulting in a more significant cultural resistance to the society they represent The authors included in this volume show that the narrative

of the writers analyzed here is not limited to recognizing issues focused on gender or even sexuality but also explores the female aspiration of a dignified life and overcoming the dominant structures in their social political and cultural dimension. The complex female situation of this millennium has become the primary quandary while searching for new forms to represent women in literature. In *Twenty First Century Latin American Narrative and Postmodern Feminism* the authors confront this dilemma in a sharp sophisticated and harmonious way offering a critical text that will be of interest for both specialists and general readers interested in Latin American literature and culture of the recent years.

Latin American Women Writers Kathy S. Leonard, 2007-09-19 There is a wealth of published literature in English by Latin American women writers but such material can be difficult to locate due to the lack of available bibliographic resources. In addition the various types of published narrative short stories novels novellas autobiographies and biographies by Latin American women writers has increased significantly in the last ten to fifteen years. To address the lack of bibliographic resources Kathy Leonard has compiled *Latin American Women Writers A Resource Guide to Titles in English*. This reference includes all forms of narrative short story autobiography novel novel excerpt and others by Latin American women dating from 1898 to 2007. More than 3 000 individual titles are included by more than 500 authors. This includes nearly 200 anthologies more than 100 autobiographies biographies or other narrative and almost 250 novels written by more than 100 authors from 16 different countries. For the purposes of this bibliography authors who were born in Latin America and either continue to live there or have immigrated to the United States are included. Also titles of pieces are listed as originally written in either Spanish or Portuguese. If the book was originally written in English a phrase to that effect is included to better reflect the linguistic diversity of narrative currently being published. This volume contains seven indexes: Authors by Country of Origin, Authors, Titles of Work, Titles of Work, Authors, Autobiographies, Biographies and Other Narrative, Anthologies, Novels and Novellas in Alphabetical Order by Author and Novels and Novellas by Authors, Country of Origin. Reflecting the increase in literary production and the facilitation of materials this volume contains a comprehensive listing of narrative pieces in English by Latin American women writers not found in any other single volume currently on the market. This work of reference will be of special interest to scholars students and instructors interested in narrative.

Brazilian Literature as World Literature Eduardo F. Coutinho, 2018-02-22 *Brazilian Literature as World Literature* is not only an introduction to Brazilian literature but also a study of the connections between Brazil's literary production and that of the rest of the world particularly European and North American literatures. It highlights the tension that has always existed in Brazilian literature between the imitation of European models and forms and a yearning for a tradition of its own as well as the attempts by modernist writers to propose possible solutions such as aesthetic cannibalism to overcome this tension.
