Van Gools Huckleberry Finn:

Huckleberry Finn Mark Twain, 1996 Van Gool's Tom Sawyer Van Gool, 1993 Face Jessica Helfand, 2019-11-12 An elaborately illustrated A to Z of the face from historical mugshots to Instagram posts By turns alarming and awe inspiring Face offers up an elaborately illustrated A to Z from the didactic anthropometry of the late nineteenth century to the selfie obsessed zeitgeist of the twenty first Jessica Helfand looks at the cultural significance of the face through a critical lens both as social currency and as palimpsest of history Investigating everything from historical mugshots to Instagram posts she examines how the face has been perceived and represented over time how it has been instrumentalized by others and how we have reclaimed it for our own purposes From vintage advertisements for a nose adjuster to contemporary artists who reconsider the visual construction of race Face delivers an intimate yet kaleidoscopic adventure while posing universal questions about identity

Nurturing Natures Graham Music, 2024-01-24 This new edition of the bestselling text *Nurturing Natures* provides an indispensable synthesis of the latest scientific knowledge about children's emotional development. Integrating a wealth of both up-to-date and classical research from areas such as attachment theory, neuroscience, developmental psychology, and cross-cultural studies, it weaves these into an accessible, enjoyable text that always keeps in mind children recognizable to academics, practitioners, and parents. New to this edition, the book considers transgender issues, same-sex parenting, experiences of Black and minority ethnic groups, well-being, and the impact of mental health in relation to climate change anxiety. It looks at key developmental stages from life in the womb to the preschool years and right up until adolescence, examining how children develop language, play, and memory, and moral capacities. Issues of nature and nurture are addressed, and the effects of different kinds of early experiences are unpicked, creating a coherent and balanced view of the developing child in context. *Nurturing Natures* is written by an experienced child therapist who has used a wide array of research from different disciplines to create a highly readable and scientifically trustworthy text. Equipped with key points, questions for consideration, further reading, and online video, chapter introductions, this book is essential reading for childcare students, teachers, social workers, health visitors, early years practitioners, and those training or working in child counselling, psychiatry, and mental health.
