Political Philosophy in the Twentieth Century Catherine H. Zuckert,2011-08-29 This book demonstrates the rich diversity and depth of political philosophy in the twentieth century Catherine H Zuckert has compiled a collection of essays recounting the lives of political theorists connecting each biography with the theorist s life work and explaining the significance of the contribution to modern political thought The essays are organized to highlight the major political alternatives and approaches Beginning with essays on John Dewey Carl Schmitt and Antonio Gramsci representing the three main political alternatives liberal fascist and communist at mid century the book proceeds to consider the lives and works of migr s such as Hannah Arendt Eric Voegelin and Leo Strauss who brought a continental perspective to the United States after World War II The second half of the collection contains essays on recent defenders of liberalism such as Friedrich Hayek Isaiah Berlin and John Rawls and liberalism s many critics including Michel Foucault J rgen Habermas and Alasdair MacIntyre *John Locke and the Uncivilized Society* Scott Robinson,2021-04-19 John Locke s influence on American political culture has been largely misunderstood by his commentators Though often regarded as the architect of a rationally ordered and civilized liberalism John Locke and the Uncivilized Society demonstrates that Locke s thought is culpable for the rather uncivilized expressions of political engagement seen recently in America By relying upon Eric Voegelin s concept of pneumopathology Locke is shown to be subtly constructing a liberal ideology and thereby individuals who approach liberalism as closed minded ideologues not as deeply responsible and mature citizens Because Locke s citizens will be slogan chanters instead of deep thinkers Locke s work does not create a liberalism that provides the best possible regime for humans but a mere shadow of the best possible regime *Approaches to Political Thought* William L. Richter,2009-03-16 Approaches to Political Thought raises three important questions concerning traditional political thought 1 Why study the political writings and ideas of Plato Machiavelli and other long dead writers 2 Who among the writers and which of their works are worth studying 3 How should they be studied The book then explores ten contemporary approaches to understanding political thought and the diverse answers to these questions The approaches covered include those of Leo Strauss Hannah Arendt Eric Voegelin Sheldon Wolin the Cambridge School Quentin Skinner and J G A Pocock Psychobiography Critical Theory of the Frankfurt School

Herbert Marcuse and Jürgen Habermas Hermeneutics Paul Ricoeur and Hans Georg Gadamer Michel Foucault and Feminist Criticism Susan Moller Okin and Jean Elshtain Each chapter includes an introductory essay and edited selections that illustrate or discuss that approach Each chapter concludes with discussion questions and suggestions for further exploration including books articles and web sites This exploration of contending contemporary approaches to political thought touches upon ongoing methodological and philosophical issues that are relevant to several academic disciplines including political science history philosophy and psychology

Herman Dooyeweerd and Eric Voegelin David Van Heemst, 2005 This study provides an introduction to two of the twentieth century's most significant philosophers Herman Dooyeweerd and Eric Voegelin Dooyeweerd and Voegelin provided a new deeper understanding of history and philosophy They were early interpreters of the crisis of modern humanism exposing its contradictions and uncovering its fundamental spiritual problems They both re described philosophy itself as depending upon something deeper than human autonomy Dooyeweerd demonstrated that all philosophizing was shaped by the commitment of the human heart and Voegelin showed that all philosophizing was a reflection on one's deeper experiences of transcendence Throughout their work they both consistently emphasized the limits of humanity Despite these similarities Dooyeweerd and Voegelin came from different religious traditions they never met spoke different languages lived in different countries and with the exception of one passing reference never made mention of the other's work Dooyeweerd was a Christian philosopher and Voegelin a Classical philosopher part because there are few introductions to their works and

no introductions to both of them The purpose of this book is to provide an introduction to these two significant philosophers relatively few people have studied both Dooyeweerd and Voegelin and even fewer who have written about them in a comparative fashion This book is in that regard unique
