Voices Choices And Second Chances:

Voices, Choices, and Second Chances Virginia Walden Ford,2005-04 How to win the battle to bring opportunity scholarships to your state based on the dramatic story and ultimately successful campaign of D C Parents for School Choice Get the inside story on this grassroots effort and empower parents for your own campaign This book teaches parents how to fight to free children from failing schools It equips you to speak out and secure school choice so that the right learning environment can be given to each child You get both instruction and inspiration in this compelling candid book **School Choice** Virginia Walden Ford,2019-11-21 Winner of the 2020 Silver Nautilus Book Award On a cold winter night in February of 1967 a large rock shattered a bedroom window in Virginia Walden Ford s home in Little Rock Arkansas landing in her baby sister s crib Outside members of the Ku Klux Klan burned a cross on her family s lawn Faceless bigots were terrorizing Virginia her parents and her sisters all because her father Harry Fowler dared to take a job as the assistant superintendent of personnel for the Little Rock School District He was more than qualified but he was black In her searing new memoir legendary school choice advocate Virginia Walden Ford recounts the lessons she learned as a child in the segregated south She drew on those experiences and the legacies handed to her by her parents and ancestors thirty years later when she built an army of parents to fight for school choice in our nation s capital School Choice A Legacy to Keep tells the dramatic true story of how poor D C parents with the support of unlikely allies faced off against some of America s most prominent politicians and won a better future for children **The School Choice Journey** T. Stewart,P. Wolf,2016-04-30 This in depth chronicle of 110 families in Washington DC s Opportunity Scholarship Program provides a realistic look at how urban families experience the process of using school choice vouchers and transform from government clients to consumers of education and active citizens School Choice Myths Corey A. DeAngelis,Neal P. McCluskey,2020-10-07 Are there legitimate arguments to prevent families from choosing the education that works best for their children Opponents of school choice have certainly offered many objections but for decades they have mainly repeated myths either because they did not know any better or perhaps to protect the government schooling monopoly In these pages 14 of the top scholars in education policy debunk a dozen of the most pernicious myths including school choice siphons money from public schools choice harms children left behind in public schools school choice has racist origins and choice only helps the rich get richer As the contributors demonstrate even arguments against school choice that seem to make powerful intuitive sense fall apart under scrutiny There are frankly no compelling arguments against funding students directly instead of public school systems School Choice Myths shatters the mythology standing in the way of education freedom Falling in Love with America Again Jim DeMint,2014-03-04 Serving within the supposed pinnacles of power as a respected and influential U S Senator from South Carolina Jim DeMint often felt frustrated and powerless to fight against the frightening growth of the federal bureaucracy and refute the mistaken idea that ever bigger government is the solution to the nation s problems In his new role as

president and CEO of The Heritage Foundation Jim DeMint has taken on the daunting responsibility of helping to lead Americans themselves to change their country's course of redirecting us back to our founding principles and restoring and protecting our economy and culture for future generations. He realized that he and all of us as fellow citizens must fall in love with America again. In this book DeMint illustrates why Americans must rediscover the power, ingenuity, and creativity of our little platoons. He then introduces Americans all across the country whose patriotism was nurtured in exactly the same way, recounting example after example of how they're working together locally in what he calls the little platoons: the families, churches, communities, and voluntary organizations succeeding on the model that smaller is better. They are the hands-on citizens who make America the exceptional, caring, and can-do country it has always been. DeMint illustrates why each of us, regardless of political party, age, race, religion, or ethnicity, must rediscover the power we represent. The country's future is at risk not just because of constant pressure from the Bigs: big government, big banks, big labor, big Wall Street cronies, etc., but because so many of us fear it's too late to solve problems so huge and seemingly intractable. Jim DeMint is here to reassure us that this is not true. In riveting yet plainspoken style, he tells real-life success stories and educates us via logical, historical, and fact-based explanations of the issues: education, taxation, regulation, poverty, labor, health care, environmentalism, Federalism, and more. He affirms the compelling truth that conservative ideas are really American ideas, and they must guide us as we turn our institutions upside down, taking them from the top-down, centrally controlled bureaucracies they've become back to the bottom-up, democratic framework the Constitution intended. Through this heartfelt, fascinating, and inspiring look inside the America of both yesterday and today, and the everyday citizens who are working tirelessly and selflessly to insure its future, fulfill the promise of its beginnings, Jim DeMint is beckoning us to join him on one of the most meaningful and momentous journeys we have ever undertaken together.
