General Bulletin ,1905 When You Think about It Robert C. Robinson,2024-05-14 Clear concise and easy to read this
eye opening book offers readers a walk through some of the greatest and most thought provoking arguments from classical
modern and contemporary philosophy Along the path it looks closely at Socrates answer to the question Did God create
morality or did he discover it what Descartes meant when he said I think therefore I am why Berkeley thought that matter
and the material world don t really exist an argument that shows that God necessarily exists whether we can really know
anything at all and finally why and whether you owe any allegiance to the rules or laws of your government and society An
expert educator with more than twenty years experience bringing these ideas to life for students the author presents these
influential surprising philosophical arguments in a delightful and accessible way While the topics span the four corners of
western philosophy the unifying theme here is one about philosophical skepticism and how it s applied as a tool for greater
intellectual inquiry The book doesn t presuppose any familiarity with philosophy though it certainly rewards those with a
