## Whose News:

The People's News Joseph E. Uscinski, 2014-02-03 Uncovers the surprising cause behind the recent rise of fake news In an ideal world journalists act selflessly and in the public interest regardless of the financial consequences However in reality news outlets no longer provide the most important and consequential stories to audiences instead news producers adjust news content in response to ratings audience demographics and opinion polls While such criticisms of the news media are widely shared few can agree on the causes of poor news quality The People s News argues that the incentives in the American free market drive news outlets to report news that meets audience demands rather than democratic ideals In short audiences opinions drive the content that so often passes off as the news The People s News looks at news not as a type of media but instead as a commodity bought and sold on the market comparing unique measures of news content to survey data from a wide variety of sources Joseph Uscinski s rigorous analysis shows news firms report certain issues over others not because audiences need to know them but rather because of market demands Uscinski also demonstrates that the influence of market demands also affects the business of news prohibiting journalists from exercising independent judgment and determining the structure of entire news markets as well as firm branding Ultimately the results of this book indicate profit motives often trump journalistic and democratic values The findings also suggest that the media actively responds to audiences thus giving the public control over their own information environment Uniting the study of media effects and media content The People s News presents a powerful challenge to our ideas of how free market media outlets meet our standards for impartiality and public service

**Eugenical News** ,1916      **Democracy's News** G. Michael Killenberg, Rob Anderson, 2023-02-20 Since the Founding America s faith in a democratic republic has depended on citizens who could be trusted to be communicators Vigorous talk about equality rights and collaboration fueled the revolution the Declaration of Independence and the Constitution with its amendments In a republic the people set the terms for their lives not individually but in community The genius of keeping it alive exists in how everyday citizens talk and listen write and read for a common good Dialogue and deliberation rather than an accumulation of individual preferences sustains a republic yet a diminished and scarred institution of journalism jeopardizes citizens access to shared and truthful information A disturbing what s in it for me attitude has taken over many citizens and a creeping autocratic sense of dismissive accusation too often characterizes the political style of elected officials The basic fuel for democracy is the willingness of informed citizens to take each other seriously as they talk about political choices Once we begin to clam up build walls and dismiss each other we unravel the threads tying us to the Founders vision of a republic A free press and free speech become meaningless if not supported by sustained listening to multiple positions There are those who profit by dividing citizens into two camps a comfortable us versus a scary them They make their case with accusations and often with lies They warp the very meaning of communication hoping citizens never truly discover each other s humanity Democracy s News discusses today s problems of public

communication in the context of history law and interpersonal life News should not be something to dread mistrust or shun Aided by reliable factual journalism citizens can develop a community based knowledge to cope with social issues great and small They come to treat neighbors and strangers as more than stereotypes or opponents They become collaborators with whom to identify and sustain a working republic where news citizenship and public discourse merge

**News Narratives and News Framing** Karen S. Johnson-Cartee, 2004-10-08 News Narratives and News Framing is a revealing look at how the media's construction of news affects our political economic and social realities In this introduction to the theory behind news framing Karen Johnson Cartee pulls together elements from communication journalism politics and sociology to create a picture of how news forms these realities for the public With its comprehensive reference section and suggestions on how to influence the news agenda this is a beneficial resource for students in political communication media criticism and communication theory
