## Why Die:

To Live and To Die: When, Why, and How R.H. Williams, 2013-04-17 In the 1960 s marked changes occurred throughout the world in philosophies and policies related to man s role in life These changes prompted predominantly by extensive increases in knowledge and population density have produced increased pleasures as well as problems The rising number of people and improved methods of communication and transportation have caused more relationships among people with their pleasures competitions jealousies conflicts of interest oppressions and crimes Large assortments of drugs have been developed and are easily obtained There are drugs to speed us up slow us down make us sleep change our perspectives on life promote propagation of life or prevent it prolong life or terminate it and modify the course of life in many ways Also numerous mechanical devices have been developed that influence the propagation of life the termination of life and the manner in which we live Many people have changed their overall goals in life and in particular have experienced major changes in attitudes and policies applying to sexual activity marriage birth control abortion welfare children old people criminals economics social status careers education euthanasia and suicide There also has been marked enlightenment concerning the effect of the chemical and physical status of the brain upon normal and abnormal thinking and behavior

Race and Media Literacy, Explained (or Why Does the Black Guy Die First?) Frederick W. Gooding Jr., 2024 Talking about race does not have to be incredibly awkward In this book Gooding offers twelve clear cogent and concise racial rubrics to help users of mainstream media more readily discern patterns hidden in plain sight The text primarily leverages popular movies as the medium of analysis since they are unparalleled in their cultural significance but the rubrics apply to other forms of media such as television print and social media Why does the Black guy die first is a well known rhetorical question that challenges disparate treatment of nonwhite characters onscreen This subtle statement about the representation of persons of color within mainstream movies has remained largely unexplored until now Race and Media Literacy Explained provides concrete concepts and a uniform vocabulary with which to recognize and further analyze these formulaic images After participating in this dynamically interactive experience readers will never see media the same way again Book Features Employs an interdisciplinary approach to teaching race drawing on cinema and forms of popular media that most students know Guidance for honing media literacy skills with middle high school and undergraduate college students A HARM Theory Rubric that identifies 6 consistent patterns for depictions of non White characters and 6 consistent patterns for White characters within mainstream movies Questions for Questing sections provide critical questions for further exploration Concrete vocabulary glossary terms to engage with the subject matter more precisely Innovative analysis of depictions of race and ethnicity in the top ten grossing films of all time
