Why Violence? Sergio Cotta, 1985      **Why Violence?** Sergio Cotta, 1985      *The Philosophy of Law* Christopher Berry Grey, 2013-07-04 From articles centering on the detailed and doctrinal exposition of the law to those which reside almost wholly within the realm of philosophical ethics this volume affords comprehensive treatment to both sides of the philosophico legal equation Systematic and sustained coverage of the many dimensions of legal thought gives ample expression to the true breadth and depth of the philosophy of law with coverage of The modes of knowing and the kinds of normativity used in the law Studies in international constitutional criminal administrative persons and property contracts and tort law including their historical origins and worldwide ramifications Current legal cultures such as common law and civilian European and Aboriginal Influential jurists and their biographies All influential schools and methods      **Philosophy 9/11** Timothy Shanahan, 2005 Many of the most pressing questions raised by terrorism are philosophical in nature This book explores the crucial ethical and theoretical issues such as What is terrorism and how is it different from other types of violence Do recent terrorist attacks constitute a fundamentally new type of terrorism How can a nation conduct a just war against terrorists Is torture of terrorists during interrogation ever justified Philosophers and terrorism experts answer these pressing moral and political questions with clarity and wisdom      *The Philosophy of Indoctrination* Chris Ranalli, 2024-12-16 This book develops and defends a novel social epistemological account of indoctrination It answers important epistemological ethical and political questions about what indoctrination is why it is epistemically harmful how it can be practiced and how we should talk about indoctrination The author presents three views related to the epistemology of indoctrination First he argues that indoctrination is most fundamentally a structural epistemic phenomenon which results in closed minded beliefs The sources of indoctrination are diverse institutional structures technological systems ideological frames and individual actions What unites them is that they lead to the systematic failure to consider seriously the relevant alternatives to what we are taught whether by accident or by design Second he makes the case that indoctrination is always wrong because it disrespects agents in their capacity as epistemic agents even when it results in true belief Third and finally he contends that public indoctrination ascriptions are political propaganda they function to promote political agendas which can ironically breed the conditions for indoctrination rather than forestall it *The Philosophy of Indoctrination* is an essential resource for researchers and advanced students working in social and political epistemology ethics political philosophy philosophy of education and terrorism and radicalization studies      Buddhist Moral Philosophy Christopher W. Gowans, 2014-07-17 The first book of its kind *Buddhist Moral Philosophy An Introduction* introduces the reader to contemporary philosophical interpretations and analyses of Buddhist ethics It begins with a survey of traditional Buddhist ethical thought and practice mainly in the Pali Canon and early Mahayana schools and an account of the emergence of Buddhist moral philosophy as a distinct discipline in the modern world It then examines recent debates about karma rebirth and nirvana well being normative ethics moral

**Prophetic Politics** Philip J. Harold,2009-09-01 In Prophetic Politics Philip J Harold offers an original interpretation of the political dimension of Emmanuel Levinas s thought Harold argues that Levinas s mature position in *Otherwise Than Being* breaks radically with the dialogical inclinations of his earlier *Totality and Infinity* and that transformation manifests itself most clearly in the peculiar nature of Levinas s relationship to politics Levinas s philosophy is concerned not with the ethical per se in either its applied or its transcendent forms but with the source of ethics Once this source is revealed to be an anarchic interruption of our efforts to think the ethical Levinas s political claims cannot be read as straightforward ideological positions or principles for political action They are instead to be understood prophetically a position that Harold finds comparable to the communitarian critique of liberalism offered by such writers as Alasdair MacIntyre and Charles Taylor In developing this interpretation which runs counter to formative influences from the phenomenological tradition Harold traces Levinas s debt to phenomenological descriptions of such experiences as empathy and playfulness Prophetic Politics will highlight the relevance of the phenomenological tradition to contemporary ethical and political thought a long standing goal of the series while also making

a significant and original contribution to Levinas scholarship
