Why We Are Here

C Cleary

Why We Are Here:

Why Are We Here? Calvin L. Keeler Sr.,2013-01-22 The question of the meaning of life challenges each one of us even as our schools attempt to channel us in our teen years into a choice for a vocation Attempting to answer this question this book first explores science and philosophy then examines faith and the scriptures and finally searches for the real historical Jesus to develop an answer This book delves right into the major issues of the nature of the world the nature of God and a search for Jesus without adherence to the previously established theological principles of the Christian church A critical and analytical approach has been used in this work as it begins with some of the most basic questions about life and our existence on this planet starting with an examination of the physical world using both traditional physics and advanced theoretical physics concepts to explain the nature of the universe The first chapter includes a discussion of the nature of God and proposes some initial responses to the primary question posed about the reason for our existence In the second chapter a substantive definition of faith is proposed This chapter also recommends applying reason and critical analysis to an understanding of the scriptures The third chapter takes a rigorous intellectual view of the gospels to explain the nature of Jesus to identify his uniqueness and to finalize the answer to the question previously proposed No attempt has been made to write a textbook or to cover all of the theological topics in this field

Why Are We Here? Victoria Carr,2023-03-06 It is nothing new to question the meaning of life History shows that the search for understanding has been ongoing for many years not only in the modern world but also in ancient minds Throughout time many people have pondered this subject and in this book you will become familiar with many outlooks from people past and present This book is a special collection of answers to the eternal question what is the meaning of life In its pages you will find the musings of a diverse and inspiring group of people along with an exploration of philosophy and a selection of poignant quotes that will influence your own life s journey If you have ever found yourself questioning the meaning of life or are seeking a deeper understanding of something you can t quite articulate this book will help you unlock the answers
