set periods of times within which you can eat a certain amount of calories while you starve yourself for the rest of the time. There are many variations of this process and hence many different methods have popped up each with a different time schedule. The most common one is the 16/8 method where you eat within a set period of 8 hours and fast for the rest of the time. Intermittent Fasting is not just a new trend but has a lot of scientific basis for why it's effective. In this book we're going to look at what exactly intermittent fasting is, how it works, its benefits, and how you can follow it.

**INTERMITTENT FASTING FOR WEIGHT LOSS Preview Chapter 4 Why Low-Calorie Diets Don't Work** Have you ever tried lowering your calories to lose weight? Did it work long-term? Could you keep the weight you lost off? If you're reading this book, my guess is that it didn't, and you're not alone. Data from the UK show 1 in 124 obese women get results using this method, meaning the nutrition guidelines some professionals are following have a 99.5% fail rate. A quick goggle of what happened to the contestants on the hit TV series *The Biggest Loser* should be enough to put you off this method. This show is a classic example of why moving more and eating less only works in the short term, if at all. There is a reason there are few reunion shows. So why are low-calorie diets flawed? A study on 14 contestants on the *Biggest Loser* show revealed some alarming results six years after filming had finished. The initial results were impressive, but as the study showed, they were short-lived. Below are results of some of the factors tested:

Factor	Weight
Average weight before filming	328 lb (148 kg)
Average weight after 30 weeks on the show	199 lb (90 kg)
Average weight six years after final	290 lb (131 kg)

As you can see, contestants lost a massive amount of weight during filming but struggled to maintain the weight loss over a long period of time. Download Now To find out why the contestants couldn't keep the weight off and how to prevent it happening to you.
