**Union with the Resurrected Christ** G. K. Beale, 2023-04-25 Southwestern Journal of Theology 2023 Book Award Biblical Studies Union with Christ is an important theological and practical concept that has received considerable attention in recent years. But not much consideration has been given to this union and its benefits in light of Jesus's resurrection and ascension. In this follow-up to his monumental *A New Testament Biblical Theology*, G. K. Beale summarizes and expands on that work with an eye to fleshing out the theological implications of the resurrection and ascension. Beale explains that Christ's resurrection and ascension place him as the beginning of the eschatological fulfillment of the new creational kingdom. Specifically, Christ is the fulfillment of a cluster of nineteen Old Testament end-time expectations. These eschatological realities attributed to Christ are imprinted on believers through their dynamic union and identification with him. Through careful exegesis, Beale explores these facets and deliberately draws out important practical applications for everyday Christian living in the overlap of the old creation and the new. Students of the New Testament will benefit from this important contribution to New Testament theology.

**Transformed by the Spirit** Craig Prather, 2020-11-30 *Transformed by the Spirit* lays out the case for Christians to develop a close relationship with the Father, Son, and Holy Spirit through the various spiritual disciplines and through the power of the Holy Spirit

**The Lost Texts of Confucius' Grandson: Guodian, Zisi, and Beyond** Kuan-yun Huang, *The Guodian Manuscripts* are a cache of literary and philosophical texts from the fourth century BCE discovered in a Warring States period tomb in China's Hubei Province. Through detailed decipherment and textual analysis, Kuan-yun Huang investigates the historical and philosophical contexts of these texts and convincingly proposes their association with Zisi, the grandson of Confucius. Huang not only offers an in-depth portrait of this famous scion from excavated texts and transmitted literary records but also reveals the connection of the Guodian texts with early intellectual tradition in China, including the teachings of Xunzi, Mencius, Confucius, and the legendary Laozi, as well as the effort of rewriting that transformed Zisi's original teachings into a conformist line of thinking which defined and constituted the Confucian tradition of a later time. In *The Lost Texts of Confucius' Grandson*, the shadowy figure of Zisi comes to life as an antinomian thinker whose works fill the lacuna between Confucius and Mencius. What is most compelling about this book is its insistence that in scholarship we must respect the interpretive context. The new putative Zisi materials have to be read in such a way that they are correlated with and situated clearly within what Huang calls the literary record. Huang's synoptic understanding of the literature allows for much abduction in his presentation, a kind of academic sleuthing in his best efforts to connect the dots. While an exciting read for those scholars who know the texts and specialize in ancient philosophical literature at the same

time the story it tells will be of interest to all scholars who work in the field of Chinese studies Roger T Ames Humanities Chair Professor Peking University Huang carefully explicates what the newly discovered manuscripts teach us about fate moral cultivation familial love and obligation and service in government as well as other concepts that were originally meant to provide social order in the Warring States kingdoms during the time of Zisi and the generations of thinkers subsequent to him Through close textual analysis and with each explanation of these ideas Huang shows that we must shake ourselves loose from earlier assumptions about their significance and embrace what the recently recovered sources tell us Jeffrey Riegel Professor Emeritus University of California Berkeley The Guodian corpus has transformed our understanding of early Chinese thought Huang does a masterful job of situating these texts in their historical and philosophical context relying on the most current scholarly literature as well as insights gained from more recent discoveries all in a very accessible style Highly recommended Edward Slingerland Professor of Philosophy University of British Columbia

**Augustine and Nicene Theology** Rene Barnes,2024-01-25 In this collection of essays Michel Rene Barnes offers a new reading of the character and development of Latin Trinitarian theology in the fourth and fifth centuries Although Augustine is the principal focus he is treated here as an inheritor of an earlier Latin tradition Antecedent theologians most notably including Marius Victorinus are given a revised interpretation and Augustine himself is explored from multiple angles At every turn developments in Augustine s thought are shown to be a response to the anti Nicene theologies of the period Most significantly this view decries the modern systematic tendency to engage with Augustine only through a simplified version of late nineteenth century categories This accusation invites the question of how far modern theology can actually engage with Patristic theology at all but Barnes offers a way forward *A Collection of Letters of Severus of Antioch* Severus (of Antioch),1919 *Be Transformed by the Spirit of the Living God* Mrs Sharon K.
