think *Life is a Classroom* is an inspiring account that illustrates a teacher's job as being much more than a simple observer of students' lives and their educational process. It's about creating a safe haven within the classroom and learning we're all not so different from anyone else regardless of what our lives may look like on the outside and how much we can learn from our students. *Life is a Classroom* shares the excitement of teaching in the 21st century with the new teaching standards and the overall approach to prepare our students to become life-long learners and global citizens. And while there are problems facing our educational system today, teachers alone can't solve them. Working together as a team—parents, extended families, teachers, school boards—we can make a difference. Looking through the lens of elementary students, this book confronts issues surrounding immigration, undocumented students, poverty, child abuse, cancer, mental illness, and witnessing the grace and human spirit needed to move past the adversity into the light. *The Teacher's Journey* Kathryn W. Williamson, Angela P. Smith, 2000-06. *The Teacher's Journey* is for any educator who believes the heart of education is the all-important connection between teacher and student. This guide explores the habits of behavior and mind that form this crucial link. The six topical units are filled with information, exercises, and insights that will help you build spontaneity and creativity in your classrooms and advance excellence in teaching and learning in your schools. **The Geographical Teacher**, 1917
