Thai Forms:

Thai Forms Jean Michel Beurdeley, 1980 This text provides a photographic essay on the formal design of everyday Thai objects from intricate shadow puppets to headdresses to simple pottery and basketry **Thailand** Charles F Keyes, 2019-07-09 Thailand is exceptional among modern states in Asia in that it has built and retained a national culture around a traditional monarchical institution Moreover this culture has also been based on a dominant religious tradition that of Theravada Buddhism The process of creating the modern nation state of Thailand out of the traditional Buddhist kingdom of Siam began in the nineteenth century when the rulers of Siam confronted with increasing pressure from the colonial powers of Britain and France were able to preserve their country's independence by instituting revolutionary changes that established the authority of a centralized bureaucracy throughout the country The new state asserted its authority not only over Siamese who lived in the core area of the old kingdom but also over large numbers of Lao Yuan or Northern Thai Khmer Malays tribal peoples and other groups all of which had previously enjoyed relative autonomy and over the sizable immigrant Chinese population which was assuming an increasingly significant role in the economy Because the rulers of the Siamese state strove to incorporate these diverse peoples into a Thai national community how this community should be defined and what type of state structure should be linked with it have been dominant questions in modern Thai history Significant tensions have arisen from the efforts by members of the Thai elite to make the monarchical traditions of the Bangkok dynasty Buddhism and the central Thai language basic to Thai national culture Other tensions have arisen as monarchy military bureaucracy the Buddhist sangha business interests and elected political representatives assert or maintain an authoritative position in the state structure This book examines these tensions with reference to the major changes that have taken place in Thai society economy polity and culture in the twentieth century especially since World War II **Desiring Thai Men** Narupon Duangwises, Narupon, Peter A. Jackson, 2025-10-15 *Desiring Thai Men* traces the transformative influence of vernacular Thai language media on Thailand's gay communities from the 1980s through the 2010s Narupon Duangwises and Peter A Jackson analyze dramatic changes in the visual representation and languaging of masculine desire and sexual identity among Thai gay men that were reflected in Thai gay magazines and gendered practices in Bangkok's gay bars fitness centers and video chatrooms Multiple masculine identities emerged in Thailand's communities of men who have sex with men from the intersecting influences of commercial gay media and gay venues Distinctive class based contextualized and flexible masculinities evolved among ethnically diverse Thai gay men in a capitalist setting of print and online media and expanding consumerist lifestyles *Desiring Thai Men* argues that evolving forms of masculinity among Thai men who pursue men offer insights for reexamining class dynamics in transnational queer and media studies and for the applicability of hegemonic masculinity beyond Western contexts *Architecture of Thailand* Nithi Sathāpitānon, Brian Mertens, 2012 Beginning with a history of the country and its cultural influences this book describes and illustrates a range of structures

from Thai houses to elaborate temples and even crematoriums It concludes with a look at contemporary Thai architecture and how traditional architecture practices have been adapted to suit modern needs [A History of Manners and Civility in Thailand](#) Patrick Jory,2021-01-07 An innovative new social history of Thailand told through the lens of changing ideals of manners civility and behaviour [Gender Across Languages](#) Marlis Hellinger,Heiko Motschenbacher,2015-04-15 This is the fourth volume of a comprehensive reference work which provides systematic descriptions of the manifestations of gender in languages of diverse areal typological and socio cultural affiliations To the 30 languages already analysed in previous volumes Vol 4 adds another 12 languages whose gendered structures have received little or no academic attention in the past Again the collection includes a broad spectrum of languages It contains languages with and without grammatical gender a language with noun classification and a classifier language larger national languages as well as smaller languages with minority status and of course members of diverse language families i e Indo European as well as Finno Ugrian Iroquois Tai Kadai and Niger Congo The volume illustrates the tremendous variation found in the area of gender representation across languages At the same time it will provide the much needed material required for an explicitly comparative approach to linguistic manifestations of gender [Report on the operations of the Royal Thai Survey Department](#) Thailand. Krom Phāenthī Thahān,1919 Some reports accompanied by appendices [The Indigenization of Pali Meters in Thai Poetry](#) Thomas J. Hudak,1990 During the Ayutthaya period in Thailand 1350 1767 a group of meters based upon specific types and arrangements of syllables became a significant part of the Thai literary corpus Known as chan in Thai literature these meters and the stanzas created from them were adapted and transformed so that they corresponded in structure to other Thai verse forms Although still used in compositions today these meters reached their greatest popularity during the mid and late Ayutthaya period and the late nineteenth to early twentieth centuries This study of the Thai chan meters contends that Thai linguistic constraints and poetic principles determined the transformation of the Pali meters and stanzas into their Thai counterparts Disproving the frequent claims that the old chan compositions ignored the sequencing of the particular syllable types required by the meters the author determines why the meters became popular only during certain eras and just what the aesthetic conditions were that nurtured the use of the meters [The Thaksinization of Thailand](#) Duncan McCargo,2005 Prior to the 1997 economic crisis for around 20 years Thai politics was characterized by a pluralistic political order featuring unstable coalition governments competing interests and a gradual displacement of bureaucratic and military influence by the rising power of elected politicians who in turn were closely linked to a range of business actors A major reform package was enacted in 1997 coinciding with the promulgation of a new constitution However the country s financial problems helped create the conditions for the emergence of the Thai Rak Thai Thais love Thai or TRT Party under the leadership of Thaksin Shinawatra a fabulously wealthy telecommunications magnate often compared with Italian premier Silvio Berlusconi Although presenting itself as a nationalist transformative party at heart TRT is little more than a vehicle for the interests and

ambitions of its founder leader Since winning a landslide election victory in January 2001 Prime Minister Thaksin has exercised an extraordinary degree of personal dominance over the Thai political scene The emergence of Thaksin and TRT has transformed Thailand's electoral landscape rendering previous analyses of Thai politics substantially outdated This book examines Thaksin's background his business activities the emergence of Thai Rak Thai his relationship with the military Thaksin's use of rhetoric through media such as radio his wider political economy networks and the future direction of Thai politics
