*The Impossible Subject of Suicide* Saartje Tack,2026-02-27 Deploying feminist and queer theories of embodiment and subjectivity *The Impossible Subject of Suicide* stages an intervention into dominant understandings of suicide that position suicide prevention as the only possible and ethical response to suicide thus ruling it out as a legitimate choice With attention to scholarly research news media fiction public health and social media the author investigates the cultural mechanisms at play in positioning and sustaining suicide prevention as a pre discursive a contextual and natural

response to suicide As the prevention narrative relies on the assumption that normal healthy and rational people want to live it relegates the suicidal subject to de agentified subject positions such as mentally ill at risk or vulnerable and thus effectively silences those who consider death As such the suicidal subject cannot exist as a subject in its own right it is an impossible subject A study of the ways in which the subject s agency is conditioned by the expression of a normative desire to live this book interrogates the taken for granted knowledges of suicide that have for decades informed understandings and representations of suicide and aims to render the lives of those who live with suicide more liveable and open up a space from which those who have culturally been silenced can speak It will therefore appeal to scholars in the social sciences and humanities with an interest in mental health suicide and or questions around agency embodiment and subjectivity
