The Aberration Bard Constantine,2012-03-01 When a freak storm engulfs a flourmill the workers learn quickly that there is much more to fear than just heavy rain Something else arrives with the storm macabre creatures that alter their shapes and features with every attack In order to survive the night the employees will have to rely on a man whose sanity is questionable For he claims to have faced the same attacks before over ages of time He calls it an Aberration A doorway that opens to a realm of nameless evils What lies beyond wants to smother our world in darkness and perverse terror It grows stronger with every passing moment and all that stands between it and our world are the workers trapped in the building Each person will be pushed to the very precipice of madness as reality distorts and the bizarre beings mount their attack In the end survival may not be enough to survive the Aberration The Aberration is a tale of mounting horror that will leave readers guessing until the very end Author Bard Constantine blends creature feature horror with psychological terror creating a story that both haunts and satisfies fans of both
