The dark night of soul is the continuation of The seer The main character returned to a mountain in search of answers for a troubled period of its life moments who forgot of God of its principles losing itself in sins In the mountain The seer had contact with two great beings who guided him to knowledge This book is a passage full of dangers pirates a great adventure in the sea bringing us reflections and questionings for which we wonder Would be possible that a criminal recovers and really would find the peace for its crimes He would find forgiveness in itself He would find the happiness Or would be only an illusion

Combining philosophical reflections with deep self exploration to delve into the ancient mystery of death and rebirth this book emphasizes collective rather than individual transformation Drawing upon twenty years of experience working with nonordinary states the author argues that when the deep psyche is hyper simulated using Stanislaw Grof s powerful therapeutic methods the healing that results sometimes extends beyond the individual to the collective unconscious of humanity itself
