## **The Gismo:**

*The Gismo Trilogy MEGAPACK®: The Complete Young Adult Series* Keo Felker Lazarus, 2016-04-14 Keo Felker Lazarus 1913-1993 was an American writer remembered for her Young Adult novels of which the Gismo series comprised of *The Gismo*, *The Gismonauts* and *A Message from Monaal* was but a small part. She also wrote fantasy, historical, and western books and picture books for younger readers such as *The Billy Goat in the Chili Patch*, *A Totem for Ti Jacques*, and *Rattlesnake Run*. In *The Gismo*, Jerry Cole finds a mysterious device which he calls a gismo for lack of a better term that turns out to be of alien origin. It was lost by a spaceship and the aliens' leader Monaal needs it to communicate with his people. Will Jerry be able to return it or will the adults prevent it and ruin our first contact with Monaal's people? In *The Gismonauts*, the action jumps farther into the future with Jerry Cole's grandson Chris encountering an alien way station set up by Monaal and his people on the moon. Monaal is still studying Earth. Can Chris keep the aliens' secret and prove humanity is ready to join the galactic Federation? In *A Message from Monaal*, the aliens have a last test for humanity and Chris may be the only one who can prove we are ready for galactic citizenship. The Gismo and its sequels are not well known beyond a generation of American kids who found them in their school classrooms and libraries. They were published for the educational market and were designed to be read by 4th to 8th grade readers in the 1970s and 1980s. Am I dating myself if I admit to reading and loving *The Gismo* in school? I don't think any copies were sold commercially. That doesn't stop this whole series from being exciting fun books which hold up exceptionally well to this day. John Gregory Betancourt

**The Gismo** Keo Felker Lazarus, 1970 Science Fiction illustrated by Leonard Shortall. Crystal radio communication

[The Perfect Medium](#) Clément Chéroux, Andreas Fischer, Pierre Apraxine, Denis Canguilhem, Sophie Schmit, 2005-01-01 In the early days of photography many believed and hoped that the camera would prove more efficient than the human eye in capturing the unseen. Spiritualists and animists of the nineteenth century seized on the new technology as a method of substantiating the existence of supernatural beings and happenings. This fascinating book assembles more than 250 photographic images from the Victorian era to the 1960s each purporting to document an occult phenomenon: levitations, apparitions, transfigurations, ectoplasms, spectres, ghosts, and auras. Drawn from the archives of European and American occult societies and private and public collections, the photographs in many cases have never before been published. *The Perfect Medium* studies these rare and remarkable photographs through cultural, historical, and artistic lenses. More than mere curiosities, the images on film are important records of the cultural forces and technical methods that brought about their production. They document in unexpected ways a period when developing photographic technology merged with a popular obsession with the occult to create a new genre of haunting experimental photographs.

**The Gold Leaf Lady and Other Parapsychological Investigations** Stephen E. Braude, 2008-11-15 For over thirty years Stephen Braude has studied the paranormal in everyday life from extrasensory perception and psychokinesis to mediumship and materialization. *The Gold Leaf Lady and Other Parapsychological*

Investigations is a highly readable and often amusing account of his most memorable encounters with such phenomena Here Braude recounts in fascinating detail five particular cases some that challenge our most fundamental scientific beliefs and others that expose our own credulousness Braude begins with a south Florida woman who can make thin gold colored foil appear spontaneously on her skin He then travels to New York and California to test psychokinetic superstars and frauds like Joe Nuzum who claim to move objects using only their minds Along the way Braude also investigates the startling allegations of K R a policeman in Annapolis who believes he can transfer images from photographs onto other objects including his own body and Ted Serios a deceased Chicago elevator operator who could make a variety of different images appear on Polaroid film Ultimately Braude considers his wife s surprisingly fruitful experiments with astrology which she has used to guide professional soccer teams to the top of their leagues as well as his own personal experiences with synchronicity a phenomenon he argues that may need to be explained in terms of a refined extensive and dramatic form of psychokinesis

Headly provocative and brimming with eye opening details and suggestions *The Gold Leaf Lady and Other Parapsychological Investigations* will intrigue both adherents and detractors of its controversial subject matter alike [The Gismo from Outer Space](#) Keo Felker Lazarus,1974 Two boys discover that the unusual device they have found is a communications system for a space ship enabling them to contact men from another planet [The Employers' Pioneer](#) ,1956 [The Signalman's Journal](#) ,1952 *Mining World* ,1960 *The Blue and Gold* ,1950 **Quarterly Bulletin of the Canadian Mining Institute** Canadian Institute of Mining and Metallurgy,Canadian Institute of Mining, Metallurgy and Petroleum,1928 *Miracle Bridge at Mackinac* David Barnard Steinman,1957 *The People Maker* Damon Knight,1959 Tired of your girl Make yourself a new one It s easy go to the nearest gizmo attach a prote of the girl you d like next push a button and there she is

**Submillimeter Astrophysics and Technology** John E. Vaillancourt,Paul F. Goldsmith,Thomas A. Bell,Nicholas Zabriskie Scoville,Jonas Zmuidzinas,2009 To anyone who has worked in submillimeter astronomy or technology during the past four decades Tom Phillips is a name that is instantly recognized He has been an innovator in developing new receiver technologies a pioneer in pushing the detection of important spectral lines and a leader in developing new observational facilities Tom has used radio optical and airborne telescopes for his research and has worked painstakingly to develop telescopes and facilities specifically for submillimeter astronomy notably the Caltech Submillimeter Observatory CSO on Mauna Kea and the Herschel Space Observatory HSO launched earlier this year Over 120 participants gathered on February 23 24 2009 in the Hameetman Auditorium of the newly constructed Cahill Center for Astronomy and Astrophysics on the campus of the California Institute of Technology in Pasadena to recognize Tom s numerous contributions over four decades with a correspondingly broad based symposium The oral and poster papers included in this volume give a snapshot of the varied areas in which Tom has worked and made such important contributions as well as provide an overview of the state of the art in submillimeter astronomy receiver technology and observing facilities Provided by publisher **Motor West and**
