[Environment, Art, and Museums: The Aesthetic Experience in Different Contexts](#) Stefano Mastandrea,Jeffrey K. Smith,Pablo P. L. Tinio,2021-06-17 **An Ethnography of Cosmopolitanism in Kingston, Jamaica** Huon Wardle,2000 The author draws a parallel between Jamaican understandings of the self and the late philosophy of Immanuel Kant The ethnographic material presented here derived from two years fieldwork in Kingston suggest that Jamaicans understand themselves as global citizens This sense of self can be identified across multiple contexts oral performance music kinship and friendship economics and politics In light of Jamaican cultural experience the book argues for a reframing of ethnographic practice as an explicitly cosmopolitan cultural practice **BOOK JACKET** **Modernism and the Aesthetics of Violence**

Paul Sheehan,2013-06-24 The notion that violence can give rise to art and that art can serve as an agent of violence is a dominant feature of modernist literature In this study Paul Sheehan traces the modernist fascination with violence to the middle decades of the nineteenth century when certain French and English writers sought to celebrate dissident sexualities and stylized criminality Sheehan presents a panoramic view of how the aesthetics of transgression gradually mutates into an infatuation with destruction and upheaval identifying the First World War as the event through which the modernist aesthetic of violence crystallizes By engaging with exemplary modernists such as Joyce Conrad Eliot and Pound as well as lesser known writers including Gautier Sacher Masoch Wyndham Lewis and others Sheehan shows how artworks so often associated with creative well being and communicative self expression can be reoriented toward violent and bellicose ends [The Aesthetics of Development](#) John Clammer,Ananta Kumar Giri,2017-11-01 Through a unique range of theoretical and practical case studies this collection considers the relationship between the arts understood as the visual arts crafts theatre dance and literature and development creating both a bridge between them that is rarely explored and filling in concrete ways the content of the culture part of the equation culture and development It includes manifestations of culture and the ways in

which they relate to development and in turn contribute to such pressing issues as poverty alleviation concern for the environment health empowerment and identity formation It shows how the arts are an essential part of the concrete understanding of culture and as such a significant part of development thinking including the development of culture and not only of culture as an instrumental means to promote other development goals

Third Agents Ian Cooper, Ekkehard Knörer, Bernhard Malkmus, 2021-01-20 *Third Agents* Secret Protagonists of the Modern Imagination brings together a varied and fascinating range of contributions to explore the role of third agents in the post Enlightenment literary imagination including modern narratives such as film It centres on the figure of the third conceived imaginatively as a liminal agent transgressing social cultural and spatio temporal boundaries and conceptually as the vital yet often problematic element in theories of discourse that seek to operate beyond binary codes of meaning This figure is revealed to be a secret protagonist of modernity neglected by and eluding the scope of existing intellectual and literary histories Contributors to this volume are drawn from diverse theoretical backgrounds encompassing work in dialectics psychoanalysis and systems theory Through their focus on literature and media they seek to understand how those conceptions of the third relate to imaginative figurations This volume offers the first comprehensive account of third agency in modern literature and its intellectual and imaginative pre history It provides an accessible combination of close readings and theoretical reflection presenting figures who inhabit in between territories such as the adventurer the bastard the priest the angel the adulterer the poet and the outcast These figures are read as protagonists in a genealogy of modernity that has not yet been written The essays here also provide fascinating answers as to why these secret protagonists often became major figures in modern philosophy and literary theory and give new insights into such writers as Benjamin Barthes and Derrida
