The Alpine Journal 1972

RJ Shavelson

The Alpine Journal 1972:

The American Alpine Journal, 1972 American Alpine Club, 2000-05-01 **The Alpine Journal**, 1930 *The Canadian Alpine Journal*, 1907 **Mountain Geography** Martin F. Price, Alton C. Byers, Donald A. Friend, Thomas Kohler, Larry W. Price, 2013-08-24 Mountains cover a quarter of the Earth's land surface and a quarter of the global population lives in or adjacent to these areas. The global importance of mountains is recognized particularly because they provide critical resources such as water, food, and wood, contain high levels of biological and cultural diversity, and are often places for tourism and recreation and of sacred significance. This major revision of Larry Price's book *Mountains and Man* 1981 is both timely and highly appropriate. The past three decades have been a period of remarkable progress in our understanding of mountains from an academic point of view. Of even greater importance is that society at large now realizes that mountains and the people who reside in them are not isolated from the mainstream of world affairs but are vital if we are to achieve an environmentally sustainable future. *Mountain Geography* is a comprehensive resource that gives readers an in-depth understanding of the geographical processes occurring in the world's mountains and the overall impact of these regions on culture and society as a whole. The volume begins with an introduction to how mountains are defined, followed by a comprehensive treatment of their physical geography: origins, climatology, snow and ice, landforms, and geomorphic processes, soils, vegetation, and wildlife. The concluding chapters provide an introduction to the human geography of mountains: attitudes toward mountains, people living in mountain regions, and their livelihoods and interactions within dynamic environments, the diverse types of mountain agriculture, and the challenges of sustainable mountain development.

Forthcoming Books
Rose Army, 1998-04 *The Andes of Bolivia* Alain Mesili, 2004 **Exploration History and Place Names of Northern East Greenland** A. K. Higgins, 2010. This Bulletin records the exploration history of northern East Greenland in three phases: the pioneer exploration and discovery from c. 2400 BC to 1912; commercial activities, early mountaineering, and geological mapping from 1919 to 1960; and modern scientific investigations, adventure, and sporting expeditions from 1961 to 2008. The catalogue of place names that forms the bulk of this volume gives the location and origin of more than 5650 approved and unapproved names.
