

What is **DEATH**?

Death is the irreversible cessation of all biological functions that sustain a living organism. It marks the end of life, involving the shutdown of vital processes like respiration and heartbeat.

Culturally and philosophically, death has been a subject of contemplation, often accompanied by diverse beliefs about an afterlife.

Scientifically, **death** is defined by the absence of measurable brain activity and bodily functions.

It remains a profound and universal aspect of the human experience, influencing diverse perspectives on existence, morality, and spirituality across different cultures and belief systems.
