Men of Empire Monique O'Connell, 2009-04-27 The city state of Venice with a population of less than 100 000 dominated a fragmented and fragile empire at the boundary between East and West between Latin Christian Greek Orthodox and Muslim worlds In this institutional and administrative history Monique O Connell explains the structures processes practices and laws by which Venice maintained its vast overseas holdings The legal linguistic religious and cultural diversity within Venice s empire made it difficult to impose any centralization or unity among its disparate territories O Connell has mined the vast archival resources to explain how Venice s central government was able to administer and govern its extensive empire O Connell finds that successful governance depended heavily on the experience of governors an interlocking network of noble families who were sent overseas to negotiate the often conflicting demands of Venice s governing council and the local populations In this nexus of state power and personal influence these imperial administrators played a crucial role in representing the state as a hegemonic power creating patronage and family connections between Venetian patricians and their subjects and using the judicial system to negotiate a balance between local and imperial interests In explaining the institutions and individuals that permitted this type of negotiation O Connell offers a historical example of an early modern empire at the height of imperial expansion *The Sanitarian* , 1896 **Death in Venice: A Quick Read edition** Quick Read, Thomas Mann, 2024-04-24 Discover a new way to read classics with Quick Read This Quick Read edition includes both the full text and a summary for each chapter Reading time of the complete text about 3 hours Reading time of the summarized text 6 minutes *Death in Venice* is a 1912 novella by Thomas Mann featuring Gustav von Aschenbach a writer who becomes increasingly obsessed with a Polish boy named Tadzio during his visit to Venice Aschenbach s fascination with
