The Golden Mirror Helmut Schwab,2008-12-01 You began to read these words What can it bring you Have you ever driven for half an hour from home to work or between any two points and not remembered much of what you saw Many of us go through most of our lives like that But others actually see perceive understand and then share life s joys or sorrows with others Life can be so touching so serious but it can also be so funny and full of joy What is our existence in this world For most of us it is a struggle for survival in a fragile way of life Then arise the desires for wealth importance in society and entertainment But does the life given to us not expect mental growth and personality development the caring for others or public service also stewardship of nature and can we not enjoy all the beauty in art culture and nature around us The following stories are offered to you the reader to let you pause and perceive to touch your human sensitivity and understanding and also to bring you joy to simply entertain you So please proceed Select titles from the table of contents and begin reading these stories When you are done hopefully you will feel enriched and maybe you will begin to perceive more stories in your own life A clear vision of reality renders the stories colorful and lively but deep empathy renders them personally meaningful Primarily based on human sensibility the stories are variously romantic funny or serious and are written at times with a smiling at times with a crying face
