SECRET
DOCTRINE

In all ages, and in all lands, the belief has existed that a Divine degree of knowledge is possible to human beings under certain conditions; and, as a corollary to this, the conviction has dwelt in the hearts of the people that Living Men exist who possess this knowledge. In ancient times this knowledge was communicated in the "Mysteries," in modern times the existence of this knowledge has been divined by a few.

The author of this work devoted more than 40 years of her life to the study and acquisition of this knowledge; she gained admittance to some of the Secret Schools of this Wisdom, and learned to know and appreciate its extent and value. The purpose of this book is to lay before the thinking world so much of this "Hidden Wisdom" as it is thought expedient to make known to our civilization.

In her earlier work, "Isis Unveiled," the author dealt with Science and Theology from a critical standpoint. But little of the positive Esoteric Teaching of the Secret Wisdom was there brought forward, though many hints and suggestions were thrown out. These find a fuller explanation in the present volume, which is a photographic reproduction of the authentic Original Edition, as written and edited in 1888 by H. P. Blavatsky.

Blavatsky, 2021-11-16 [The Secret Doctrine Volume I Cosmogogenesis](#) H P Blavatsky The author the writer rather feels it necessary to apologize for the long delay which has occurred in the appearance of this work It has been occasioned by ill health and the magnitude of the undertaking Even the two volumes now issued do not complete the scheme nor do these treat exhaustively of the subjects dealt with in them A large quantity of material has already been prepared dealing with the history of Occultism as contained in the lives of the great Adepts of theryan Race and showing the bearing of Occult Philosophy upon the conduct of life as it is and as it ought to be Should the present volumes meet with a favourable reception no effort will be spared to carry out the scheme of the work in its entirety This scheme it must be added was not in contemplation when the preparation of the work was first announced As originally announced it was intended that The Secret Doctrine should be an amended and enlarged version of Isis Unveiled It was however soon found that the explanations which could be added to those already put before the world in the last named and other works dealing with Esoteric Science were such as to require a different method of treatment and consequently the present volumes do not contain in all twenty pages extracted from Isis Unveiled

The Secret Doctrine H. P. Blavatsky, 2015-09-23 The aim of this work may be thus stated to show that Nature is not a fortuitous concurrence of atoms and to assign to man his rightful place in the scheme of the Universe to rescue from degradation the archaic truths which are the basis of all religions and to uncover to some extent the fundamental unity from which they all spring finally to show that the occult side of Nature has never been approached by the Science of modern civilization But it is perhaps desirable to state unequivocally that the teachings however fragmentary and incomplete contained in these volumes belong neither to the Hindu the Zoroastrian the Chaldean nor the Egyptian religion neither to

Buddhism Islam Judaism nor Christianity exclusively The Secret Doctrine is the essence of all these Sprung from it in their origins the various religious schemes are now made to merge back into their original element out of which every mystery and dogma has grown developed and become materialised It is needless to explain that this book is not the Secret Doctrine in its entirety but a select number of fragments of its fundamental tenets special attention being paid to some facts which have been seized upon by various writers and distorted out of all resemblance to the truth

The Secret Doctrine Helena Petrovna Blavatsky, 2017-08-03 The first proposition is that there is one underlying unconditioned indivisible Truth variously called the Absolute the Unknown Root the One Reality etc It is causeless and timeless and therefore unknowable and non describable It is Be ness rather than Being However transient states of matter and consciousness are manifested in IT in an unfolding gradation from the subtlest to the densest the final of which is physical plane According to this view manifest existence is a change of condition and therefore neither the result of creation nor a random event Everything in the universe is informed by the potentialities present in the Unknown Root and manifest with different degrees of Life or energy Consciousness and Matter The second proposition is the absolute universality of that law of periodicity of flux and reflux ebb and flow Accordingly manifest existence is an eternally re occurring event on a boundless plane the playground of numberless Universes incessantly manifesting and disappearing each one standing in the relation of an effect as regards its predecessor and being a cause as regards its successor doing so over vast but finite periods of time Related to the above is the third proposition The fundamental identity of all Souls with the Universal Over Soul and the obligatory pilgrimage for every Soul a spark of the former through the Cycle of Incarnation or Necessity in accordance with Cyclic and Karmic law during the whole term The individual souls are seen as units of consciousness Monads that are intrinsic parts of a universal oversoul just as different sparks are parts of a fire These Monads undergo a process of evolution where consciousness unfolds and matter develops This evolution is not random but informed by intelligence and with a purpose Evolution follows distinct paths in accord with certain immutable laws aspects of which are perceivable on the physical level One such law is the law of periodicity and cyclicity another is the law of karma or cause and effect

The Secret Doctrine Helena Petrovna Blavatsky, 1925 **The Secret Doctrine Volume Two** Helena Petrovna Blavatsky, 2020-02-17 The Secret Doctrine the Synthesis of Science Religion and Philosophy a book originally published as two volumes in 1888 written by Helena Blavatsky The first volume is named Cosmogogenesis the second Anthropogenesis It was an influential example of the revival of interest in esoteric and occult ideas in the modern age in particular because of its claim to reconcile ancient eastern wisdom with modern science Blavatsky claimed that its contents had been revealed to her by mahatmas who had retained knowledge of humanity s spiritual history knowledge that it was now possible in part to reveal Volume two Anthropogenesis The second half of the book describes the origins of humanity through an account of Root Races said to date back millions of years The first root race was according to her ethereal the second root had more physical bodies and lived in Hyperborea The third root race the first to be truly human is said to have existed on the lost continent of Lemuria and the fourth root race is said to have developed in Atlantis According to Blavatsky the fifth root race is approximately one million years old overlapping the fourth root race and the very first beginnings of the fifth root race were approximately in the middle of the fourth root race citation needed The real line of evolution differs from the Darwinian and the two systems are irreconcilable according to Blavatsky except when the latter is divorced from the dogma of Natural Selection She explained that by Man the divine Monad is meant and not the thinking Entity much less his physical body Occultism rejects the idea that Nature developed man from the ape or even from an ancestor common to both

but traces on the contrary some of the most anthropoid species to the Third Race man In other words the ancestor of the present anthropoid animal the ape is the direct production of the yet mindless Man who desecrated his human dignity by putting himself physically on the level of an animal
