Todo Sobre Einstein:

Todo sobre el universo (con dos cojones) Juan José Isac Sánchez, 2014-05-29 C mo empez todo Qui n est ah fuera organizando las cosas Es infinito el universo o solo bastante grande Qu es un agujero negro Cu l es la estrella m s gorda Por qu Saturno puede tener anillos y los dem s planetas no Es malo ser capricornio Por qu Hawking vende tanto Hay vida inteligente fuera de la Tierra Y dentro Todas estas cuestiones y muchas m s que ahora no se nos ocurren tienen cabida en este completísimo volumen perge ado por Isac con el rigor que le caracteriza pero ello no debe preocuparnos porque hemos aplicado al texto un programa informático que corrige los errores y suprime las sandeces y las imprecisiones y lo deja todo tan niquelado como si hubiera salido de la pluma del mismísimo Punset solo que a un precio de saldo que debe de aprovechar antes que lo retiren porque saldo es todo lo que concibe este hombre a la media hora de salir de la imprenta Aproveche la oferta antes que los guillotinen o vayan a las escuelas del tercer mundo Aqu encontrar cualquier cosa que necesite conocer de este universo puede que incluso de algún otro pues este volumen es completísimo y ya el título nos anuncia bien clarito que trata de Todo sobre el universo y todo es todo aquí y en Lima Nosotros no lo sabemos porque no nos gusta leer y el tema del universo nos aburre sobremanera pero este hombre tan serio y bien aspectado nos causa siempre magnífica impresión cada vez que lo vemos con su trapo y su cubo en los sem foros y si dice que está todo pues estar todo así que lo leen y si falta algo ya lo comentamos Desde luego el libro es lo bastante gordo como para que no haya quedado una estrella por conocer ni una luna sin explorar Sin embargo hay otro libro sobre el universo más corto y birriejo que el mismo autor ha hecho circular por las gasolineras y que no le aconsejamos en absoluto no solo porque sea más barato y saquemos menos con él sino porque está hecho con desgana y desapego y concebido solo para espíritus perezosos e indolentes Y usted no es de esos Usted es de los que se tragan libros gordos no importa el precio para saberlo todo acerca de las cosas y presidir luego con acierto una sociedad cultural o una comunidad de vecinos Así que no nos defraude No nos venga ahora con que usted resulta ser de los morralleros que compran libros cortos y baratos solo para coger el sueño o ocasionalmente tener algo en que distraerse mientras obra Pero para eso bastaba el crucigrama no un tratado sobre el universo Qué decepción No esperábamos tal cosa Y pensar que Isac se ha documentado con ilusión hasta en lo de la Teoría de Cuerdas para no dejar un solo cabo suelto como bien nos dijo guíndonos un ojo y dándonos con el codo como para que celebráramos con ella la pretendida ocurrencia Ande compre el libro gordo y no haga que nos enfademos

The Most Protected Secrets in Human History Carlos A. Llorens, 2024-01-18 You are in possession of one of humanity's most ever jealously guarded treasures This knowledge has been passed down not through written words but verbally through the ages Since ancient times men have insatiably searched for answers and during the early days of our consciousness on this planet we had a much purer mind and body which allowed us to discern things better with more agility and clarity during which we were able to gain awareness of how certain things work especially how we interact with ourselves and our environment The discoveries were amazing divine and magical to be

conservative Those discoveries changed the course of humanity forever The knowledge was so powerful that it was never written in an effort to ensure that only a few would receive it verbally At a certain point these jealously guarded secrets were controlled by secret societies whose societies are composed of the most powerful individuals on earth called the elite class and the minority who believes that everyone should have access to this knowledge they decided to share it and now you have in your hands something very difficult to describe its true value With this knowledge if you apply it you have the power to transform your life forever Discover your inborn inherited Divine secret abilities within you With this knowledge and its power may you never be the same KT Respectfully and with true and honest love for your success Carlos A Llorens Estas en posesion de uno de los tesoros celosamente guardados de los humanos Este conocimiento ha sido transmitido no escrito sino verbalmente a traves de los siglos Desde la antiguedad los hombres han buscado insaciablemente respuestas y durante los primeros tiempos de nuestra conciencia en este planeta teniamos una mente y un cuerpo mucho mas puros lo que nos permitio discernir mejor las cosas con mas agilidad y claridad durante los cuales pudimos obtener la conciencia de como funcionan ciertas cosa especialmente como interactuamos con nosotros mismos y nuestro entorno los descubrimientos fueron asombrosos divinos y magicos para ser conservadores esos descubrimientos cambiaron el curso de la humanidad para siempre Esos descubrimientos permitieron a los primeros hombres iluminados ejercitar algunas de nuestras santas habilidades dotadas y lograr algunos de los mayores logros jamas conocidos por la humanidad el conocimiento era tan poderoso que nunca fue escrito en el esfuerzo de asegurar que solo aquellos que demostraron poseer los requisitos previos los recibirian verbalmente a traves de un proceso de tutoria En cierto punto esos secretos celosamente guardados fueron controlados a traves de lo que hoy conocemos como Sociedades Secretas cuyas Sociedades estan compuestas por los individuos mas poderosos de la tierra llamada la clase elite esta clase se divide en dos partes la mayoria la cual cree que el resto de la poblacion debe trabajar para ellos ya que saben como manejar el planeta y la minoria que cree que todos deben tener acceso a este conocimiento gracias a su amor por la humanidad decision y voluntad de compartir este conocimiento ahora tienen en sus manos algo muy dificil de describir su verdadero valor Con este conocimiento y si lo aplicas tienes el poder de transformar tu vida para siempre Descubriras los secretos de tus habilidades heredadas nacidas dentro de ti De K T Con este conocimiento y su poder que nunca seas el mismo Respetuosamente con amor verdadero y honesto por su exito Carlos A Llorens
