True Thomas Jefferson:

The True Thomas Jefferson William Eleroy Curtis, 1901 **The Real Thomas Jefferson**, 1983 Jefferson is the central figure in American history and he may yet prove to be the central figure in modern history So stated noted historian Henry Steele Commager **The Real Thomas Jefferson** lets you meet the man as he really was rather than as interpreted by historians The book tells much of his exciting story in his own words You will meet a man who lost his wife when she was only 33 and lost four children before the age of three created the masterpiece of his life the Declaration of Independence at the young age of 33 served as governor of war torn Virginia and once escaped British capture by only minutes was one of the geniuses behind the American Constitution even though he was serving in France during the Constitutional Convention was a true Renaissance man skilled in farming scientific experimentation practical invention economics political philosophy and statesmanship nearly lost his first presidential election to Aaron Burr a scoundrel who later may have committed treason The second part of this book brings together the most important and insightful passages from Jefferson s writings conveniently arranged by subject Book jacket

The True Thomas Jefferson William Eleroy Curtis, 1901 **The Real Thomas Jefferson** Eric Mark Braun, 2019 Thomas Jefferson set the course for a new nation ruled by and for the people In the Declaration of Independence his words explained that all people are created equal and all deserve life liberty and the pursuit of happiness Jefferson s vision continues to guide the United States but his own life wasn t always inspiring There are hard truths about Jefferson just as there are towering achievements In that sense many people believe Jefferson was very much like the nation he helped create

The true Thomas Jefferson William Eleroy Curtis, 1920 **The True Thomas Jefferson (Classic Reprint)** William Eleroy Curtis, 2018-01-12 Excerpt from **The True Thomas Jefferson** In a personal letter to the author of this volume who had requested of the Democratic editor some prefatory words Henry Watterson says I do not like to see two names upon a title page But I will say this Though not a hero worshipper I am too good a partisan to question my principal and Jefferson has been not alone my file leader but a guiding star in my political firmament I am used to measure all systems to try all causes to deter mine all policies by the rules laid down in his philosophy To me he stands out after Washington and Franklin the one clear figure in our early history a perfect Doric column wanting the brilliant levity of Hamilton the sturdy but narrow spirit of Adams sure footed and far seeing not merely a statesman of the first order but a very principal in the domain of original thinking and moral forces The minor circumstances of his private life may interest me but could in no wise change my perspective because I am fixed in the belief that he was an upright and disinterested man who considered his duty to his country before all else Such inconsistencies as appear in his career are but proofs of this Since he never can wholly About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged

Cleon Skousen, The United States of America has been blessed with the world s greatest political success formula In a little over a century this formula allowed a small segment of the human family less than 6 percent to become the richest nation on earth It allowed them to create more than half of the world s total output in production and enjoy the highest standard of living in the history of the world In this book we learn how the Founding Fathers discovered this success formula Much of this discovery is told in the words of the Founders themselves so that the reader can feel the power of their minds sweeping away thousands of years of bad government and illogical laws to formulate a whole new society based on human freedom By returning to the roots of the Founders thinking and contemplating the logic that they used in establishing the Constitution we can better understand the challenges and solutions that confront us in today s political world This eBook includes the original index illustrations footnotes table of contents and page numbering
