Truth About Love

Conor Creighton

Truth About Love:

The Truth about Love Elizabeth Currie, 2005 The Truth About Love is an original philosophical theory which presents a comprehensive holistic model of the normal human psyche The purpose of the book is to reveal to the average person their own nature The Truth About Love is written in question and answer form which gives the advantage of allowing the reader to focus quickly on questions of personal interest and to reflect on each issue before moving on to a new concept The first section Love The Key comprises the central theory which explains the phenomenon of love You learn how love transcends its reputation as a romantic attachment to another person and gives you a basic premise for understanding most aspects of human nature The second section Emotion and Feeling gives a complete explanation of emotion and for the first time an explanation of feeling apart from emotion This new knowledge is used to examine old philosophical questions about human nature such as altruism creativity and happiness The third section Motivation relates the central theory to your everyday life giving structure and meaning to your thoughts and actions in a simple and concise way Also in this section is perhaps the most important application of the concepts of love emotion and feeling in an explanation of self love In conclusion you will discover how self love leads to optimum mental health and how this affects other areas of your life The Truth About Love provides answers that you cannot find in textbooks but that you ask yourself everyday They are simple questions and simple answers that will change your life
