Utopia Of Usurers:

Utopia of Usurers and Other Essays G. K. Chesterton, 2016-12-24 Every page of the book is interesting An attack on modern society with special reference to Great Britain Mr Chesterton is up in arms against the terror of a world which shall be ruled in politics and literature and art and all things else by its captains of industry The New York Times He is particularly concerned about the way in which the capitalists of today use art and the press for their own purposes His spleen it seems is largely directed against the liberal press Springfield Republican The work is an impassioned plea for the natural rights of men and the restoration of their earlier liberties There is no lack of wisdom based upon enduring truths and expressed with the clearness of a tocsin Catholic World We are all familiar with the Utopias of idealists who picture a world that has banished poverty and crime But G K Chesterton the English writer in a book entitled Utopia of Usurers that has just been published on this side of the water writes of a new kind of Utopia the kind that hard headed business men and Capitalists are going to establish for themselves if they ever get a chance That they will get a chance and that they may accomplish their aims is Chesterton s haunting fear We must hit Capitalism and hit it hard he says for the plain and definite reason that it is growing stronger As his contribution to an assault that he hopes will become general Chesterton writes the present book Current Opinion In Utopia of Usurers a series of reprints of essays first published in periodical form Chesterton has much to say about his island He is in a bad humor Things have not gone well with the island Not only is a dastardly foe threatening it from without but there is cause for endless disgruntlements within The all s well with the world frame of mind of Orthodoxy has given way to scowls and apprehensive shakings of the head Even the cheery mysticism of that book and of so many of its successors is somewhat less in evidence than it should be in writing coming from Chesterton s pen The Dial Chesterton confines his attention to denouncing conditions in England he dismisses the case of Germany briefly and even while condemning the Prussian military economic machine the Prussia military economic machine finds time to condemn also the silly boycott of Germans in England extending even to the German music The Independent CONTENTS A Song of Swords Utopia of Usurers I Art and Advertisement II Letters and the New Laureates III Unbusinesslike Business IV The War on Holidays V The Church of the Servile State VI Science and the Eugenists VII The Evolution of the Prison VIII The Lash for Labour IX The Mask of Socialism

aspects and departments of modern life and describe what I think they will be like in this paradise of plutocrats this Utopia of gold and brass in which the great story of England seems so likely to end I propose to say what I think our new masters the mere millionaires will do with certain human interests and institutions such as art science jurisprudence or religion unless we strike soon enough to prevent them And for the sake of argument I will take in this article the example of the arts

Utopia of Usurers and Other Essays G K Chesterton, 2021-02-06 The two kinds of social reform one of which might conceivably free us at last while the other would certainly enslave us forever are exhibited in an easy working model in the two efforts that have been made for the soldiers wives I mean the effort to increase their allowance and the effort to curtail their alleged drinking In the preliminary consideration at any rate we must see the second question as quite detached from our own sympathies on the special subject of fermented liquor It could be applied to any other pleasure or ornament of life it will be applied to every other pleasure and ornament of life if the Capitalist campaign can succeed The argument we know but it cannot be too often made clear An employer let us say pays a seamstress two pence a day and she does not seem to thrive on it So little perhaps does she thrive on it that the employer has even some difficulty in thriving upon her There are only two things that he can do and the distinction between them cuts the whole social and political world in two It is a touchstone by which we can not sometimes but always distinguish economic equality from servile social reform He can give the girl some magnificent sum such as six pence a day to do as she likes with and trust that her improved health and temper will work for the benefit of his business Or he may keep her to the original sum of a shilling a week but earmark each of the pennies to be used or not to be used for a particular purpose If she must not spend this penny on a bunch of violets or that penny on an omelette or the other penny on a toy for some baby it is possible that she will concentrate her expenditure more upon physical necessities and so become from the employer's point of view a more efficient person Without the trouble of adding two pence to her wages he has added two penny worth to her food In short she has the holy satisfaction of being worth more without being paid more
