Nathaniel Robert Walker

Utopian Visionaries:

Utopian Visionaries Thomas Streissguth,1999 Discusses efforts to create perfect societies by such individuals as Ann Lee and Joseph Meacham and the Shakers Christian Metz and the Amana Colonies George Rapp and the Harmony Society Robert Owen and New Harmony George Ripley and Brook Farm John Humphrey Noyes and Oneida and Katherine Tingley and the Point Loma community

Where are the Utopian Visionaries? Hansy Better Barraza,2012 This book fits the era of Obama and financial meltdown It contains essays by mostly young architects who have gone grass roots to work with people materials and building types way off radar for earlier generations of architects There is an eye opening essay on bamboo Jean Chae discusses her work using materials from Home Depot to build communal buildings in villages of Central America Balkrishna Doshi introduces a housing development that its inhabitants following a few guidelines built from debris The point throughout is a reversal of the usual flow of power and ideas The architects have all endeavored to learn from people who if noticed by mainstream authorities have had buildings imposed on them 175 illustrations *The Last Utopians* Michael Robertson,2020-04-28 The Last Utopians delves into the biographies of four key figures Edward Bellamy William Morris Edward Carpenter and Charlotte Perkins Gilman who lived during an extraordinary period of literary and social experimentation The publication of Bellamy s Looking Backward in 1888 opened the floodgates of an unprecedented wave of utopian writing Morris the Arts and Crafts pioneer was a committed socialist whose News from Nowhere envisions a workers Arcadia Carpenter boldly argued that homosexuals constitute a utopian vanguard Gilman a women s rights activist and the author of The Yellow Wallpaper wrote numerous utopian fictions including Herland a visionary tale of an all female society These writers Robertson shows shared a belief in radical equality imagining an end to class and gender hierarchies and envisioning new forms of familial and romantic relationships They held liberal religious beliefs about a universal spirit uniting humanity They believed in social transformation through nonviolent means and were committed to living a simple life rooted in a restored natural world And their legacy remains with us today as Robertson describes in entertaining firsthand accounts of contemporary utopianism ranging from Occupy Wall Street to a Radical Faerie retreat

Victorian Visions of Suburban Utopia Nathaniel Robert Walker,2020 A study of British and American Utopian writing of the 1800s in the context of developments in real architectural political and cultural life The book studies utopian visions published in the UK and the USA in the 1800s by writers such Robert Owen James Silk Buckingham Edward Bellamy and William Morris

Handbook of Decision Making Goktug Morcol,2006-11-01 Handbook of Decision Making includes the wisdom of the long theological and philosophical traditions of human society as well as a systematic exploration of the implications of contemporary evolutionary theories Common patterns in decision making styles are identified as well as the common variations that different contexts may generate The text covers the multiplicity of mainstream decision making styles such as cost benefit analysis and linear programming It also explains alternative and emerging methods such as geographic

information systems Q methodology and narrative policy analysis Practical applications are discussed using decision making practices in budgeting public administration and governance drug trafficking and information systems *Utopian Communities in Nashaway* Cynthia H. Barton,2001 **The Limits of Policy Change** Michael T. Hayes,2002-03-31 Michael Hayes offers a vigorous defense of incrementalism the theory that the policymaking process typically should involve bargaining delay compromise and therefore incremental change Incrementalism he argues is one result of a checks and balances system in which politicians may disagree over what we want to achieve as a nation or what policies would best achieve shared goals Many political scientists have called for reforms that would facilitate majority rule and more radical policy change by strengthening the presidency at the expense of Congress But Hayes develops policy typologies and analyzes case studies to show that the policy process works best when it conforms to the tenets of incrementalism He contends that because humans are fallible politics should work through social processes to achieve limited ends and to ameliorate rather than completely solve social problems Analyzing the evolution of air pollution policy the failure of President Clinton s health care reform in 1994 and the successful effort at welfare reform in 1995 96 Hayes calls for changes that would make incrementalism work better by encouraging a more balanced struggle among social interests and by requiring political outcomes to conform to the rule of law Written for students and specialists in politics public policy and public administration **The Limits of Policy Change** examines in detail a central issue in democratic theory **The Ashgate Research Companion to Planning Theory** Patsy Healey,2016-11-03 At a time of potentially radical changes in the ways in which humans interact with their environments through financial environmental and or social crises the raison d tre of spatial planning faces significant conceptual and empirical challenges This Companion presents a multidimensional collection of critical narratives of conceptual challenges for spatial planning The authors draw on various disciplinary traditions and theoretical frames to explore different ways of conceptualising spatial planning and the challenges it faces Through problematising planning itself the values which underpin planning and theory practice relations contributions make visible the limits of established planning theories and illustrate how by thinking about new issues or about issues in new ways spatial planning might be advanced both theoretically and practically There cannot be definitive answers to the conceptual challenges posed but the authors in this collection provoke critical questions and debates over important issues for spatial planning and its future A key question is not so much what planning theory is but what might planning theory do in times of uncertainty and complexity An underlying rationale is that planning theory and practice are intrinsically connected The Companion is presented in three linked parts issues which arise from an interactive understanding of the relations between planning ideas and the political institutional contexts in which such ideas are put to work key concepts in current theorising from mainly poststructuralist perspectives and what discussion on complexity may offer planning theory and practice **Utopian Fantasy** Richard Gerber,1973 **The Utopian Mind and Other Papers** Aurel Kolnai,1995 Unfinished at the time of Kolnai

s death The Utopian Mind should be widely welcomed by students of moral and political philosophy It provides a powerful critique of the Utopian mode of valuation Kolnai locates utopian thinking in totalitarian systems of the Right and Left and as an unspoken background to much liberal thought and to many of the best known theories of moral philosophy **The Nineteenth Century and After** ,1919 *The Charity Organisation Review* ,1921 [The Humanitarian](#) ,1918 **The Utopian Vision** Saint Thomas More,1983 To find out more information about Rowman Littlefield titles please visit us at [www rowmanlittlefield com](http://www.rowmanlittlefield.com) [The Charity Organisation Review](#) Charity Organisation Society (London, England),1921 **Of what Use are Common People?** Heinrich Ewald Buchholz,1923 *Future West* William Henry Katerberg,2008 What is the future of the American West This book look at works of utopian dystopian and apocalyptic science fiction to show how narratives of the past and future powerfully shape our understanding of the present day West *Nineteenth Century and After* ,1898 *Syndicalism, Industrial Unionism and Socialism* John Spargo,1913 **Utopian Studies** ,1996
