Vanished Landscape:

The vanished landscape Paul Johnson,2006 The Vanished Landscape Paul Johnson,2013-10-31 Paul Johnson recalls with warmth and affection his childhood in the Potteries and a unique industrial landscape that has now gone for ever Paul Johnson the celebrated historian grew up in Tunstall one of the six towns around Stoke on Trent that made up the Potteries From an early age he was fascinated by the strange beauty of its volcanic landscape of fiery furnaces belching out heat and smoke As a child he often accompanied his father headmaster of the local art school and desperate to find jobs for his students for this was the Hungry Thirties to the individual pottery firms and their coal fired ovens His adored mother and father are at the heart of this story and his older sisters who as much as his parents brought him up Children made their own amusements to an extent unimaginable today and his life was extraordinarily free and unsupervised No door was locked Poverty was everywhere but so were the Ten Commandments The book ends in 1938 as the 11 year old author queues at the town hall for a gas mask *Archaeology and Preservation of Gendered Landscapes* Sherene Baugher,Suzanne M. Spencer-Wood,2010-03-11 Historical archaeology of landscapes initially followed the pattern of Classical Archaeology by studying elite men s gardens Over time particularly in North America the field has expanded to cover larger settlement areas but still often with ungendered and elite focus The editors of this volume seek to fill this important gap in the literature by presenting studies of gendered power dynamics and their effect on minority groups in North America Case studies presented include communities of Native Americans African Americans multi ethnic groups religious communities and industrial communities Just as the research focus has previously neglected the groups presented here so too has funding to preserve important archaeological sites As the contributors to this important volume present a new framework for understanding the archaeology of religious and social minority groups they also demonstrate the importance of preserving the cultural landscapes particularly of minority groups from destruction by the modern dominant culture A full and complete picture of cultural preservation has to include all of the groups that interacted form it Our Vanishing Landscape Eric Sloane,2004-01-01 This book takes readers on a leisurely journey through a bygone era with fascinating accounts of canals corduroy roads and turnpikes waterwheels and icehouses colorful road signs and their painters circus folk and more Brimming with anecdotes about people and the times this delightful narrative remains a milestone of Americana 81 black and white illustrations **Nature Spirits & Elemental Beings** Marko Pogacnik,2012-06-01 Based on firsthand practical experiences of communicating with natural spirits through meditation this eye opening guide to healing the earth teaches how to work with elemental beings by describing each in detail while defining their roles within the web of life As a result of tuning in to plants trees and animals and illustrating the disrupted flow of energies within the landscape the true impact of human culture upon the harmony of the natural world is evocatively revealed Insight into related topics such as how the long suppressed Goddess culture embraces these energies to make strides toward healing the earth can set anyone with earth and
